INTRODUCTION

The Georgia State Financing and Investment Commission (GSFIC),

created by constitutional amendment in 1972, is responsible for the proper application of proceeds from general obligation debt and the issuance of all public debt by the State. No agency or authority can incur debt or employ other financial or investment advisory counsel without Commission approval.

The Financing and Investment Division (F&I Division) is responsible for the issuance of general obligation bonds, the review of state authority debt financings, and the investment and accounting of all general obligation bond proceeds. Investment earnings fund GSFIC's operating budget, and also enable the Commission to retire state debt prior to maturity. The F&I Division prepares the State's Debt Management Plan and monitors agency expenditures of bond proceeds for compliance with federal tax regulations.

The Construction Division provides all of the support services for GSFIC and is responsible for disbursing bond proceeds and for managing capital outlay projects funded, in whole, or in part, with bond proceeds.

The Construction Division also provides the following services for state Agencies:

- ADA Compliance Assistance
- · Procurement Services
- Construction Services
- Design Review Services

WELCOME

On behalf of Governor Brian P. Kemp, Chairman of the Georgia State Financing and Investment Commission, it is our privilege to present the Commission's FY 2019 Annual Report.

Through the leadership of Governor Kemp, members of the Commission, and the Georgia General Assembly, we have the honor of serving a state that has maintained AAA ratings on its general obligation debt from the three major credit rating agencies every year since 1997. This credit rating- which is the highest rating to be obtained by a state- allows Georgia to fund infrastructure investments that are vitally important for economic growth and competitiveness.

At the beginning of FY 2019, we successfully closed the Series 2018A/B general obligation bonds which provided over \$1.3 billion of proceeds for capital projects. In June 2019, GSFIC received competitive bids reflecting very low true interest costs on the Series 2019A/B/C general obligation bonds which will fund over \$1 billion for priority capital investments.

Looking forward to FY 2020, GSFIC will deliver construction management services to over 100 new bond projects, including a new Carroll County campus at West Georgia Technical College, Convocation Center at Georgia State University, Academic Learning Center at Kennesaw State University, renovating and revisioning the Metro State Prison as a transitional facility, and major renovations at the Georgia World Congress Center and Savannah Convention Center.

Consistent with Governor Kemp's Strategic Goals for Georgia, which includes making this State #1 for small business, the Construction Division has prioritized educating both vendors and agencies. The agency conducted two workshops regarding the Construction Management at Risk Delivery Method, geared to firms with little or no experience bidding on those types of projects. Both events attracted more than 100 attendees from the contractor community.

We are honored to serve a state that makes fiscally conservative debt management a priority. Our continued commitment to serving state agencies and state authorities with excellence reflects our charge of "Building Georgia's Future".

DIANA POPEDirector, Financing &
Investment Division

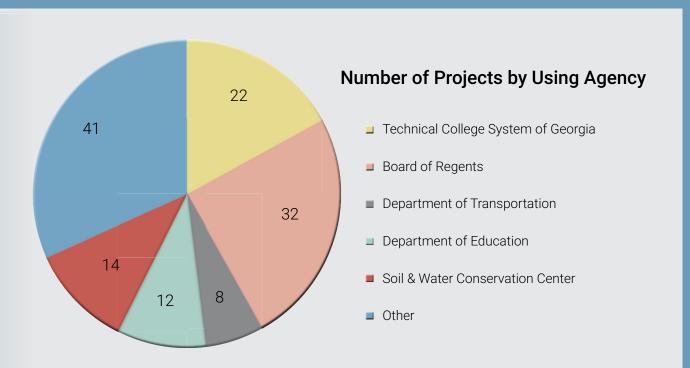

HELPING GEORGIA GROW

During FY 2019, Georgia maintained AAA credit ratings on its general obligation debt from the three major credit rating agencies—Moody's, Standard & Poor's, and Fitch—as it has every year since 1997. Factors contributing to the coveted high ratings include the State's conservative debt management, commitment to fully fund the actuarially determined employer contribution for the State's pension plans, Georgia's strong economy, growth of the rainy-day fund, and strong fiscal management. The AAA ratings allow the State to sell its bonds at the lowest possible interest rates, which results in the lowest possible debt service payments while investing in vital infrastructure and providing more employment opportunities for Georgia's construction industry.

Construction management is an intricate art of planning, designing, and coordinating. This year, GSFIC's project managers learned Microsoft Project Management along with methods to aid in the evaluation/analysis of construction project schedules. Completion of this training provides the team with more tools to stay on track or make adjustments if they are behind. Beyond training and managing GSFIC's construction projects, the team provided their expertise to aid agencies with their internally managed projects. While the Georgia Technology Authority was the lead on the construction of the Georgia Cyber Center in Augusta, GSFIC expedited all of the life safety and constructability reviews/permitting so the project could stay on an accelerated schedule. GSFIC also assisted with the Bobby Jones Foundation's complete renovation of the Bobby Jones Golf Course, including a new clubhouse and parking deck.

Delivery Method	# of Projects	Project Contracts		Total Contract Budgets

Grand Total	129	\$107,361,622.27	\$1,271,018,983.92	\$197,542,809.86	\$1,575,923,416.05

CONSERVATIVE DEBT MANAGEMENT

In July 2018, the State issued general obligation bonds which provided funding for approximately \$1.321 billion for authorized capital projects. The "True Interest Cost," which considers all the associated costs incurred to issue the bonds, as well as the interest which will be paid on the bonds through final maturity, was a very low 3.176%. This reflects a great demand for the bonds.

The largest amount of funding provided over \$485 million for higher education (the University System of Georgia and the Technical College System of Georgia), followed by \$396 million for K-12 schools, and \$212 million for transportation projects.

GEORGIA

The bonds also provided over \$85 million for economic development and water/sewer projects, \$70 million for other projects such as local libraries and public health facilities, \$35 million for public safety projects, and \$35 million for the Savannah Harbor Expansion project.

"Georgia works diligently to maintain our coveted AAA bond rating," said Governor Brian P. Kemp. "I am incredibly proud of our state's efficient use of taxpayer resources. This successful sale allows us to continue to invest in vital infrastructure projects across the Peach State to support economic growth, provide job opportunities in the construction industry, and meet the future needs of our citizens."

CONSERVATIVE DEBT MANAGEMENT

The State's debt management plan, which is developed by GSFIC in collaboration with the Governor's Office of Planning and Budget, is a critical component of demonstrating Georgia's conservative fiscal management to both the rating agencies and the purchasers of Georgia's bonds. The plan helps to guide state leaders in maintaining manageable levels for new debt authorizations. The below projections are as of December 31, 2018.

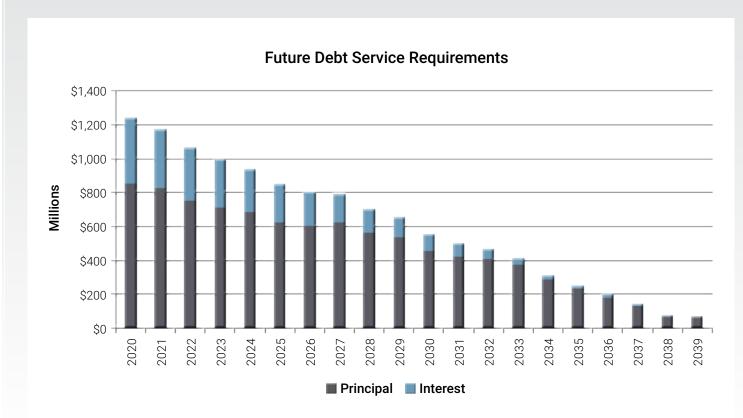

The 5.1% ratio of annual debt service as a percentage of prior year state treasury receipts for FY 2019 was the lowest since FY 1998 and reflects strong fiscal management to limit debt authorizations in response to declining revenues from the Great Recession.

Projections of \$1.2 billion in new authorizations for Fiscal Years 2020 through 2023 maintain conservative debt ratios that are within both the 10% Constitutional limit and the 7% limit set by GSFIC. The State funded over \$1.3 billion for authorized capital projects during FY 2019, but as shown below the total amount of outstanding general obligation debt at the end of FY 2019 increased by only \$394.755 million from the total amount outstanding at the end of FY 2018.

Total Bonds Outstanding as of June 30, 2018	\$8,994,040,000
Add: Bonds Issued in FY 2019 to Fund Projects*	1,228,625,000
Less: Scheduled Principal Maturities During FY 2019	(833,470,000)
Less: Open Market Bond Acquisitions/Early Retirements	(400,000)
Total Bonds Outstanding as of June 30, 2019	\$9,388,795,000

*The Commission utilized \$91.47 million of premium received from the sale of the series 2018A bonds to fund over \$1.32 billion for authorized capital projects (the premium proceeds reduced the amount of bonds that needed to be issued).

The State's Constitution requires that each year the appropriations for debt service payments on all general obligation debt be made to a special trust fund which is designated as the State of Georgia General **Obligation Debt Sinking** Fund. The amount to be appropriated to the sinking fund must be sufficient to pay that year's debt service on all outstanding general obligation debt and also the highest annual debt service requirement on any and all authorized but unissued debt.

The chart shows future debt service requirements for the general obligation debt outstanding as of June 30, 2019. The maturity schedule will retire 41% of the total outstanding principal within five years and 72% of the outstanding principal within ten years, rates which the rating agencies note as a positive aspect of Georgia's debt profile.

The Georgia Higher Education Facilities Authority ("GHEFA") is administratively attached to GSFIC with the GSFIC staff serving as GHEFA staff. GHEFA was created by the General Assembly during its 2006 Session by Senate Bill 562 and is authorized to issue and have outstanding \$500 million in revenue bonds to finance capital projects for units of the University System of Georgia ("USG") and the Technical College System of Georgia.

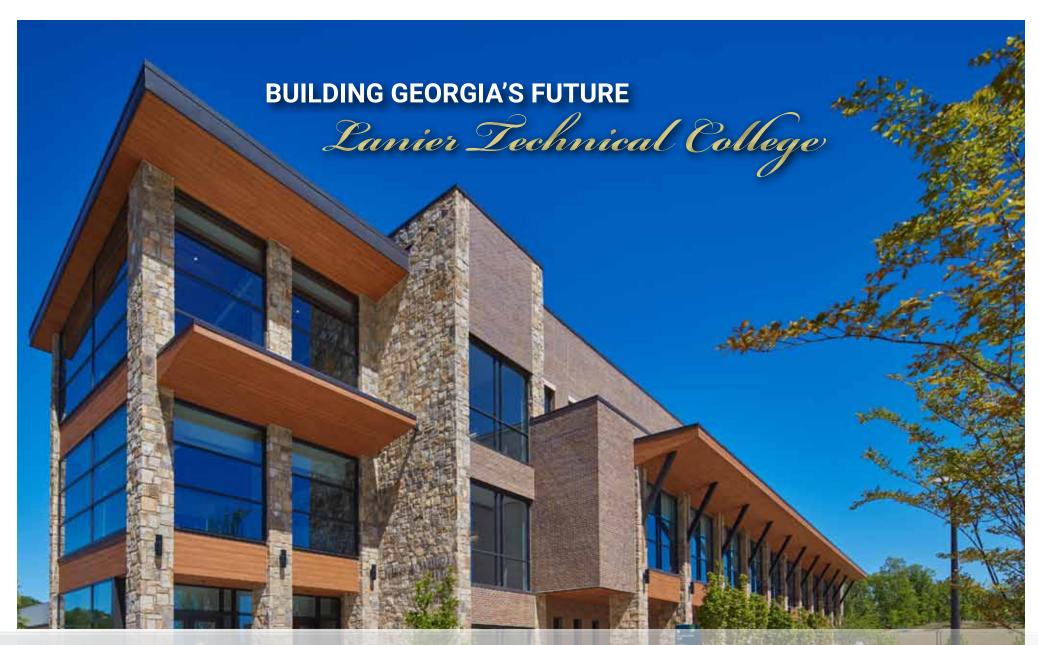

The table below shows projects that were funded with GHEFA revenue bonds; all projects have been completed and put into operation. As a result of various defeasance and refunding transactions and scheduled principal payments, an aggregate of \$197.575 million GHEFA bonds were outstanding as of June 30, 2019.

Bonds	Institution	Project	Original Amount	Balance - As of 6/30/2019
2008 Bonds	Dalton State College	Parking Deck	7,240,000	6,375,000
Refunded or	Darton College	Student Activity Center	21,845,000	21,250,000
Defeased in FY 2015	Fort Valley State University	Stadium & Student Center	20,030,000	21,335,000
2010	Gainesville State College	Parking Deck	5,435,000	4,780,000
	Georgia College & State University	Bookstore & Theatre	8,385,000	8,270,000
	Georgia State University	Student Housing	18,315,000	
	Kennesaw University	Parking Deck	18,605,000	18,215,000
2009A Bonds	Bainbridge State College	Student Center	21,265,000	_
Refunded or	Columbus State University	Student Center	34,095,000	24,675,000
Defeased in FY 2019	Kennesaw University	Student Housing & Dining Facility	45,490,000	33,720,000
2010A Bonds	College of Coastal Georgia	Student Housing	15,590,000	
(Housing	College of Coastal Georgia	Student Center	13,365,000	11,305,000
Projects Defeased in	East Georgia College	Student Housing	8,910,000	
FY 2015)	Georgia College & State University	Wellness & Recreation Center	31,400,000	26,555,000
	Savannah State University	Stadium & Student Center	18,930,000	16,010,000
	University of West Georgia	Bookstore	6,015,000	5,085,000
Totals			\$ 294,915,000	\$ 197,575,000

FY 2019 Activity:

- USG purchased the Bainbridge State College project and the bonds for that project were defeased.
- Remaining outstanding 2009A bonds were refunded, providing over \$22.4 million in total debt service (cash flow) savings for Kennesaw State University and Columbus State University.

While GHEFA does not expect to issue bonds for new projects during FY 2020, GHEFA/GSFIC and the USG continue to monitor interest rates to evaluate the potential of refunding the 2010A bonds to achieve debt service savings.

Lanier Technical College's New Hall County Campus exemplifies their mission to continue education and training for the workforce of North Central Georgia. Spanning 95.5 acres, and encompassing 320,000 square feet across six buildings, the new campus cultivates emerging technologies with space identified for future expansion.

The design of the new campus provides over 60 highly integrated workforce development programs including trade and industry, allied sciences, business and computer technology, hospitality, education, and economic development. A 40,000 square foot conference center and maker-space business incubator labs were designed to foster partnerships with the Hall County community and give them representative space on the campus.

With student inclusivity as a focus, the campus design supports collaboration, social interaction, and engagement. Student life functions include a bookstore, library, and numerous social/study areas spaced throughout the campus.

Two major stakeholders were honored to have buildings named after them – the Governor Nathan Deal Economic Development Center and the Chris Riley Instructional Building. The success of this investment is due to a combination of creative master planning collaborative dialogue between stakeholders representing the State of Georgia, Lanier Technical College, the design team, the contractor team, and the community.

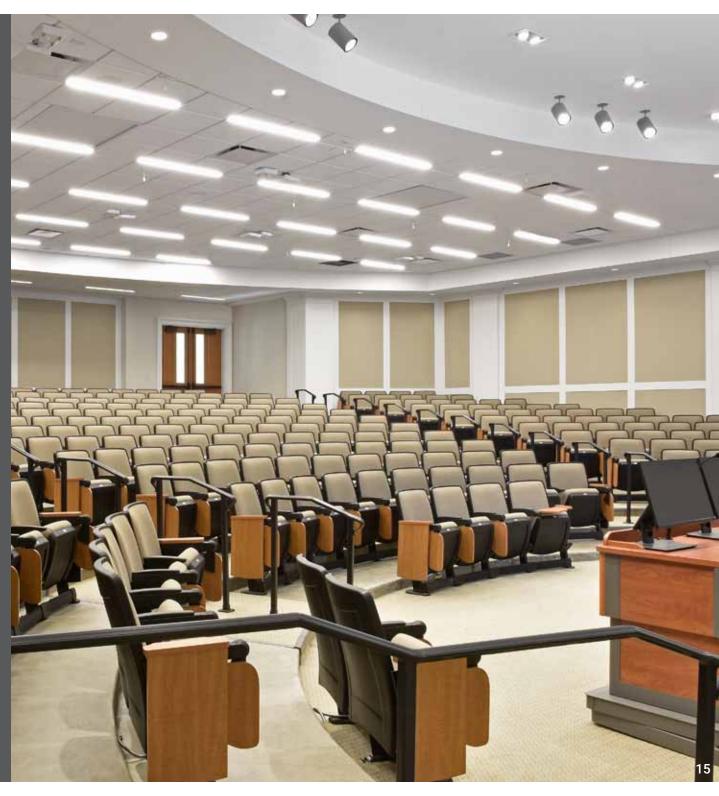

The new home for the Terry College of Business at the University of Georgia, a three-phase development, is placed on a prominent site adjacent to the University's historic core. GSFIC recently completed the third phase of the project which houses the College's undergraduate programs, faculty offices, and research centers. The two wings, Orkin Hall and Ivester Hall, of Phase III form a quadrangle with Amos Hall of the Phase II project. Phase III also included the construction of the Coca-Cola Plaza, serving as the front entryway into the Business Learning Community. Primarily neo-Georgian in expression, the new Terry School incorporates Greek Revival motifs that are reflective of the University of Georgia's architectural vernacular, carrying forward the campus's historic palette of red brick, limestone trim and slate roofs. This project completes the final phase of a six-building complex making up the University of Georgia's Business Learning Community.

BUILDING GEORGIA'S FUTURE

Georgia Emergency Management and Homeland Security Agency

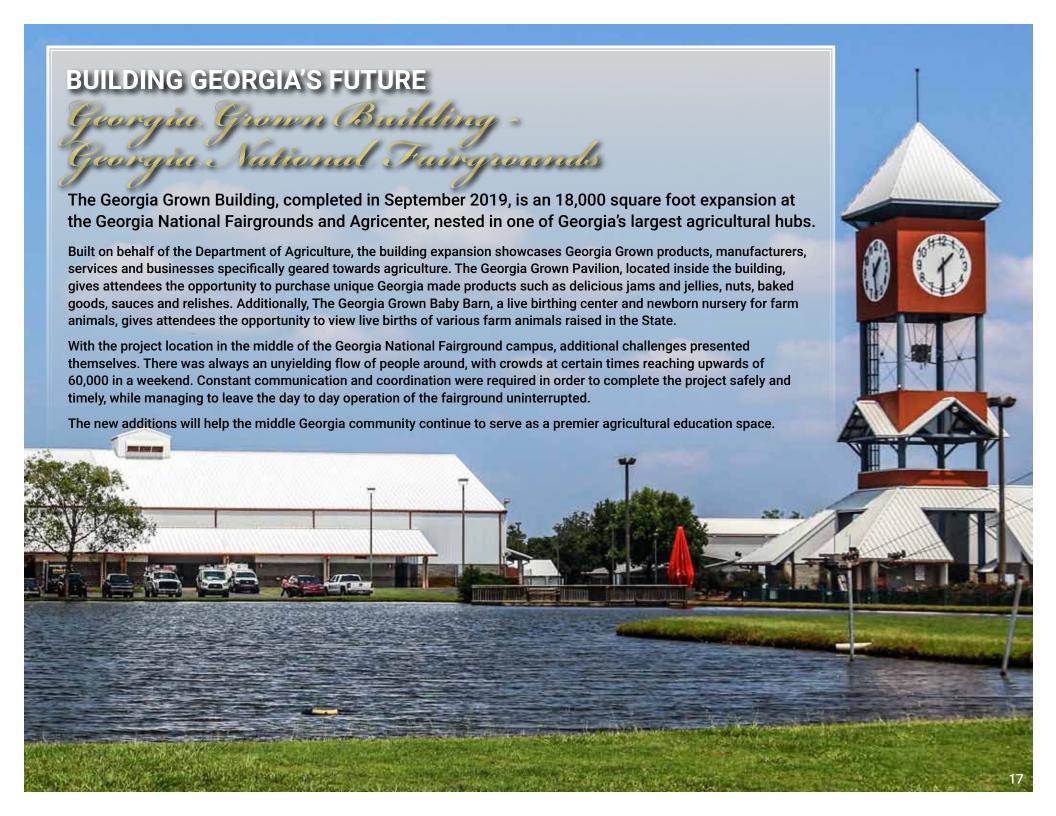

The Georgia Emergency Management and Homeland Security Agency (GEMA/HS) coordinates the state's preparedness, response and recovery efforts to disasters.

GEMA works with local, state and federal governments, in partnership with the private sector and faith-based community, to prevent and respond to natural and manmade emergencies. In addition, GEMA/HS employees are on 24-hour call statewide to assist local authorities when disaster strikes.

This project was a renovation and expansion of the existing GEMA/HS headquarters, located in East Atlanta. The headquarters, built before the 1996 Olympic Games in Atlanta, is a hub of activity when emergency strikes. The expansion included updating the communications and media systems that provide accurate and timely information to the citizens of Georgia. Additionally, the renovation also increased office space for multiple departments and added housing for those employees who must work around the clock when disaster strikes.

The project developed swing space to temporarily house the State Operation Center (SOC) and State Warning Point (SWP), thus leaving the agency prepared to respond to state-wide emergencies at any time during construction. With these additions, GEMA has the ability to work in a more operative environment and respond to emergencies with more efficiency.

The Georgia Peach Program rates and recognizes buildings owned or managed by the state that optimize energy performance, increase the demand for materials and furnishings produced in Georgia, improve the environmental quality in this State, conserve energy, protect the State's natural resources, and reduce the burden on the State's water supply.

LATIN

The office also conducted fifteen (15) Georgia Accessibility training sessions to State Inspectors, Municipal and County code enforcement and Voting Authorities, State Agencies, Design Professionals, architectural students and GSFIC Plan Reviewers. The largest training conducted was to over 500 voting authority professionals.

ADA TECHNICAL GUIDANCE, TRAINING, AND SUPPORT

The State ADA Coordinator's Office provides state agencies the technical support and assistance necessary to implement the ADA's requirements applicable to their public mission; assists state agencies in updating, strengthening and enhancing the scope of self-evaluation and transition plans to ensure compliance with the ADA mandate; and develops effective and inclusive methods for people with disabilities to access the programs, services, and activities offered by the State of Georgia.

In October 2018, the office hosted the 7th Annual ADA for State and Local Governments Conference at the Georgia Tech Hotel and Conference Center. Presenters from the Burton Blatt Institute, United States Access Board, the U.S. Equal Employment Opportunity Commission (EEOC), State ADA Coordinator's Office, Fulton County, Georgia Department of Natural Resources, Georgia Department of Corrections, the University System of Georgia, and the Center for Inclusive Design and Innovation at Georgia Tech provided the latest information on the ADA regulations, accessibility standards, implementation strategies, and best practices for state and local governments.

The annual conference is an amazing educational tool for state and local government agencies to receive an overview of the ADA components; yet, the State ADA Coordinator's Office also offered several one-on-one training sessions throughout the State of Georgia which addressed specific agency needs. The office presented at annual training conferences/ meetings for the Centers for Disease Control, the Council for State Personnel Administration. American Correctional Health Services Association, Georgia Vocational Rehabilitation Agency, Georgia Department of Corrections, and the University of Georgia School of Law.

"We are grateful for the support of the outstanding team at the State ADA Coordinator's Office. Their expertise in ADA training and technical assistance has been invaluable to GDC."

- Timothy C. Ward, Commissioner, Georgia Department of Corrections

STATEWIDE FACILITIES IMPROVEMENT PROGRAM

In FY 2019, the State ADA Coordinator's Office conducted 266 site and plan reviews to assess facility (building and/or site) accessibility, and served 126 state agencies/entities, local agencies, and community organizations.

The State ADA Coordinator's Office worked with the Jekyll Island Authority to make accessibility improvements to beach access in March 2019. General obligation bonds, allocated through the State ADA Coordinator, helped to fund a ramped crossover for accessible beach access. Additionally, the Authority also constructed a new comfort station, ocean viewing deck, and parking area.

The Statewide ADA Facilities Improvement Program was established to help ensure that state owned facilities meet the Americans with Disabilities Act ("ADA") Title II "program access" mandate to provide equal access to these facilities for persons with disabilities.

This program includes:

- Accessibility audits of state facilities to determine the level of access, access deficiencies, and possible corrective action to comply with the ADA regulations and applicable federal and state accessibility codes;
- · Assistance to state agencies in preparing upcoming budget requests for ADA facility improvements; and
- Allocation of designated ADA funding to state agencies for ADA facility improvements to existing state facilities.

The office works with state agencies to develop budget requests and undertake ADA-related construction projects. These projects address accessible entrances, primary function areas, restroom alterations, site modifications, automatic doors, curb cuts, ramps, pathway renovation, door modification, and other accessibility elements and features to meet the letter and spirit of the Americans with Disabilities Act.

GEORGIA TRANSPORTATION INVESTMENT ACT (TIA)

In 2012, voters in three Georgia regions - River Valley (RV), Central Savannah River Area (CSRA) and the Heart of Georgia Altamaha (HOGA) - approved a 10year one percent sales tax to fund regional and local transportation improvements. The Southern Georgia (SG) Region passed the referendum in 2018. Prior to the votes, regional roundtables of local elected officials, with significant public input, selected projects for each region's Approved Investment List. Combined, these lists represent 1,022 projects. TIA tax collections will continue through 2022 for the original three regions, and until 2028 in the SG Region. GSFIC is responsible for receiving the monthly TIA tax collections from the Department of Revenue for each region; 75% of those funds is transferred to the Approved Investment List projects for those regions, while the remaining 25% is distributed to all municipal and county governments within the region according to a pre-determined distribution formula for their discretionary use on local transportation-related efforts.

In FY 2019, GSFIC distributed \$149 million to the Approved Investment List projects and \$50 million to the local governments for their discretionary transportation projects.

Since the inception of the TIA program, a total of approximately \$966 million has been received and distributed through June 30, 2019.
