INDEPENDENT AUDITOR'S REPORT

The Members Georgia Higher Education Facilities Authority Atlanta, Georgia

Report on the Financial Statements

We have audited the accompanying financial statements of the **Georgia Higher Education Facilities Authority** (the "Authority"), a component unit of the State of Georgia, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Georgia Higher Education Facilities Authority as of June 30, 2020, and the changes in its financial position and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, as presented in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 24, 2020 on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

(A Component Unit of the State of Georgia) MANAGEMENT'S DISCUSSION AND ANALYSIS

Management's discussion and analysis of the financial performance of the Georgia Higher Education Facilities Authority (the "Authority") is intended to provide the readers of these financial statements with an overview of the Authority's financial activities for the year ended June 30, 2020.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Authority's basic financial statements. The Authority's basic financial statements comprise two components: 1) financial statements and 2) notes to the financial statements.

Financial Statements

The *statement of net position* presents information on all of the Authority's assets, deferred outflows of resources, and liabilities, with the difference between these reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Authority is improving or deteriorating.

The statement of revenues, expenses, and changes in net position presents information showing how the Authority's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The basic financial statements can be found on pages 7-9 of this report.

Notes to the Financial Statements

The Notes provide additional information that is essential to a full understanding of the data provided in the basic financial statements. The Notes to the financial statements can be found on pages 10-16 of this report.

The net position of a governmental entity may serve as an indicator of the entity's financial position. The Authority's net position at June 30, 2020 decreased to \$662,479. The Authority was created by the State Legislature in 2006 and began operations in fiscal year 2008. The Authority's purpose is to finance eligible construction, renovation, improvement, rehabilitation or restoration projects for the Board of Regents of the University System of Georgia and the Technical College System of Georgia through the issuance of revenue bonds.

The legislation that created the Authority limited the amount of outstanding principal that could be outstanding at any one point in time to \$300 million. During its 2012 session, the General Assembly of Georgia approved legislation which was signed into law by the Governor to increase the amount of outstanding debt that the Authority can have outstanding at any point in time by \$200 million to \$500 million.

(A Component Unit of the State of Georgia) NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Reporting Entity:

The Georgia Higher Education Facilities Authority (the "Authority") was created by legislation enacted by the 2006 General Assembly of Georgia and is a component unit of the State of Georgia.

Pursuant to the legislation establishing the Authority, the primary purpose of the Authority is to finance eligible construction, renovation, improvement, rehabilitation or restoration projects for the Board of Regents and the Technical College System of Georgia through the issuance of revenue bonds.

The accounting policies of the Authority conform to accounting principles generally accepted in the United States of America as applicable to governmental units. The following is a summary of the more significant accounting policies.

(b) Basis of Presentation:

In accounting and reporting for its proprietary fund-type operations, the Authority applies all Governmental Accounting Standards Board (GASB) pronouncements.

The accrual basis of accounting and economic resources measurement focus are utilized by the Authority. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred. Revenues and expenses associated with the Authority's central purpose of financing the eligible construction, renovation, improvement, rehabilitation or restoration projects for the Board of Regents and the Technical College System of Georgia are considered to be operating revenues and expenses.

(c) Note Receivable:

The note receivable is the total of the principal payments from the USG Real Estate Foundation I, LLC, USG Real Estate Foundation II, LLC and USG Real Estate Foundation III, LLC under loan agreements between the parties.

(d) Bond Discounts:

Bond discounts are presented as a reduction of the face amount of bonds payable and amortized over the term of the debt using the effective interest method.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(e) Bond Premiums:

Bond premiums are presented as an addition of the face amount of bonds payable and amortized over the term of the debt using the effective interest method.

(f) Deferred Outflows of Resources:

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. The Authority has one type of item that qualifies for reporting in this category. This item is the deferred charge on refunding reported in the statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded debt or the refunding debt.

(g) Related Party Transactions:

During the normal course of business, the Authority provides services to the Board of Regents and Technical College System of Georgia and enters into loan and leasing arrangements with entities related to the Board of Regents and Technical College System of Georgia. The relationship with these entities is so pervasive that disclosure of the relationship alone is sufficient and significant transactions with the entities are noted throughout the financial statements and the notes.

(h) Economic Dependency:

The Authority provides services to the Board of Regents and the Technical College System of Georgia. Substantially all of the Authority's revenues are from these entities.

(i) Management Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

NOTE 2. DEPOSITS AND INVESTMENTS

The bank balance of cash deposits at year end, which totaled \$2,600, was insured by FDIC insurance. The carrying amount of these deposits was \$2,600. The investment in the Georgia Fund 1 represents the Authority's portion of a pooled investment account operated by the Office of the State Treasurer. The pool consists of U.S. Treasury obligations, securities issued or guaranteed by the U.S. Government or any of its agencies or instrumentalities, banker's acceptances, overnight and term repurchase agreements with highly rated counterparties, and collateralized bank accounts. The pool's primary objectives are safety of capital, investment income, liquidity and diversification while maintaining principal (\$1 per share value). The asset value is calculated weekly to ensure stability. The pool distributes earnings (net of management fees) on a monthly basis and determines participants' shares sold and redeemed based on \$1 per share. The pool also adjusts the value of its investments to fair value as of year-end and the Authority's investment in the Georgia Fund 1 is reported at fair value. The investment in the Georgia Fund 1 was \$483,741 as of June 30, 2020.

Credit risk:

State statutes authorize the Authority to invest in obligations of the State of Georgia or other states; obligations issued by the U.S. Government; obligations fully insured or guaranteed by the U.S. Government or by a government agency of the United States; obligations of any corporation of the U.S. Government; prime banker's acceptances; the local government investment pool established by state law; repurchase agreements; and obligations of other political subdivisions of the State of Georgia. As of June 30, 2020, the Authority's investment in the Georgia Fund 1 was rated AAAf by Standard & Poor's.

At June 30, 2020, the Authority had the following investments:

| Investment | <u>Maturities</u> | _ <u>F</u> | Fair Value | | | |
|----------------|-------------------------|------------|------------|--|--|--|
| Georgia Fund 1 | 38 day weighted average | \$ | 483,741 | | | |
| Total | | \$ | 483,741 | | | |

Fair Value Measurements:

The Georgia Fund 1 is an investment pool which does not meet the criteria of GASB Statement No. 79 and thus is valued at fair value in accordance with GASB Statement No. 31. As a result, the Authority does not disclose the investment in the Georgia Fund 1 within the fair value hierarchy.

NOTE 2. DEPOSITS AND INVESTMENTS (Continued)

Interest rate risk:

The Authority does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Custodial credit risk - deposits:

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Members
Georgia Higher Education
Facilities Authority
Atlanta, Georgia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Georgia Higher Education Facilities Authority (the "Authority"), a component unit of the State of Georgia, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements, and have issued our report thereon dated September 24, 2020.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Authority's internal control over financial reporting ("internal control") as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
