All employment is decided on the basis of qualifications, merit and business need.

Position Overview

Position Description: Reporting to the Deputy CIO, the IT Enterprise Infrastructure Engineer ensures the integrity, availability, reliability, performance and efficiency of the network, applications and communications for the Georgia Building Authority (GBA), Georgia State Financing and Investment Commission (GSFIC), and the State Properties Commission (SPC). This position is responsible for the design, installation, maintenance, and retirement of the systems that are core to the organizations. They ensure that all relevant data is properly collected and stored including performance metrics, service levels, server status and both planned and unplanned system outages. The IT Enterprise Infrastructure Engineer participates in the planning and implementation of systems for all IT related projects. Responsible for evaluation and selection of infrastructure hardware and systems. Makes recommendations and assists in the implementation of changes to work methods and procedures to make them more effective. The IT Enterprise Infrastructure Engineer also performs other job-related duties as assigned.

Minimum Qualifications: Bachelor's degree from an accredited college or university in a related field **AND** Five (5) years of experience managing professional level staff **OR** Nine (9) years of experience **AND** Five (5) years of management experience at the level equivalent to area of assignment **OR** Five (5) years of experience at the lower level Sr Mgr, Business Ops (GSM012)

Must meet agency requirements to become authorized driver

Note: An equivalent combination of education and job specific experience that provided the knowledge, experience and competencies required to successfully perform the job at the level listed may be substituted on a year-over-year basis.

Preferred Qualifications (Agency Specific):
- Master's Degree in Computer Science, Information Technology, or related field
- CCNA Certification AND (3) years administering an Enterprise network **OR** Seven (7) years administering an Enterprise network

Competencies: Ability to understand the agency's business drivers and the need to create and maintain a security program that facilitates these drivers, along with providing security and compliance with federal and state regulations and laws; Ability to provide superior customer service to a diverse customer group; Ability to independently research, analyze, and make effective recommendations on administrative, management, budgetary, and fiscal practices, procedures, and problems; Ability to write complex reports in a logical, comprehensive, and concise manner

This position is subject to close at any time once a satisfactory applicant pool has been identified.
The selected applicant must be authorized to work in the United States and must successfully pass a pre-employment criminal background check, motor vehicle records check and drug screen.
Due to the large volume of resumes received by this office, we are unable to provide information on your resume status over the telephone.
Notifications will only be sent to applicants who are selected to interview.
