Members of the Board:

The State Health Benefit Plan is comprised of three health insurance plans: a plan primarily for State employees, established by O.C.G.A. § 45-18-2, a plan for teachers, established by O.C.G.A. § 20-2-881, and a plan for non-certificated public school employees, established by O.C.G.A. § 20-2-911. These health insurance plans are operated as one plan, and together they are referred to as the State Health Benefit Plan (SHBP). The statutes establishing the plans are referred to as "The Acts." The State Health Benefit Plan covers active employees, retirees, and their eligible dependents under The Acts for health insurance. Legislation was enacted in 2009 creating two separate OPEB funds, the Georgia State Employees Post-Employment Health Benefit Fund (the "State Employee OPEB Fund"), which provides for the payment of current and future retiree health benefits for State employees, and the Georgia School Personnel Post-Employment Health Benefit Fund (the "School Personnel OPEB Fund"), which provides for the payment of current and future retiree health benefits for teachers and non-certificated public school employees. The Georgia Department of Community Health (DCH) is the State agency responsible for obtaining the valuation of the two OPEB Funds. Enclosed are the results of the annual actuarial valuations of the State Employee OPEB Fund and the School Personnel OPEB Fund prepared as of June 30, 2021.

Based on the recent and projected pattern of employer contributions to the State Employee OPEB Fund and the long-term rate of return assumption on investments, the State is expected to contribute an amount each year that is a significant portion of the actuarially determined employer contribution. Therefore, we have updated the discount rate from 4.50% to 7.00% for the State Fund, representing the assumed long term rate of return for this Fund. The discount rate for the School Fund remains at 4.50% because the current pattern of employer contributions is not sufficient to cover the actuarially determined employer contribution. Therefore, the discount rate used to determine the present value of benefits for the School Fund needs to be reflective of the blend between the expected investment return on long term investments and on cash and other very short-term investments.

In order to prepare the results in this report, we have utilized appropriate actuarial models that were developed for this purpose. These models use assumptions about future contingent events along with recognized actuarial approaches to develop the needed results.

The impact of the Affordable Care Act (ACA) was addressed in this valuation. Review of the information currently available did not identify any specific provisions of the ACA that are anticipated to significantly impact results other than plan design features and fees currently mandated by the ACA and incorporated in the plan designs, which are included in the current baseline claims costs. Continued monitoring of the ACA's impact on the Plan's liability will be required.

The impact of the COVID-19 pandemic was considered in this valuation; however, no changes were incorporated at this time due to the level of uncertainty regarding the impact on both plan costs and contribution levels going forward. Given the uncertainty regarding COVID-19 (e.g., the impact of routine care being deferred, direct COVID-19 treatment and prevention costs, changes in contribution and budget projections), continued monitoring of the impact on the Plan's liability will be required.

As separate and distinct Cost Sharing Multiple-Employer Plans, both OPEB Funds separately value their own OPEB liabilities, report the results, and make the appropriate disclosures under GASB. The Plan and the employers will be required to comply with the financial reporting requirements of GASB Statements No. 74 and 75. The necessary disclosure information will be provided in separate supplemental reports.

The OPEB liabilities of the State OPEB Fund are determined based on projected expenses for retired State employees enrolled in the SHBP. The OPEB liabilities of the School Personnel OPEB Fund are determined based on projected expenses for retired teachers and public school employees enrolled in the SHBP. Projected expenses are determined based on eligibility requirements in effect on January 1, 2022 and benefit offerings in effect on January 1, 2022. Results are shown separately for the State Employee OPEB Fund, which primarily includes members of the Employees' Retirement System (ERS), the Judicial Retirement System (JRS), and the Legislative Retirement System (LRS), and the School Personnel OPEB Fund, which primarily includes members of the Teachers' Retirement System (TRS) and the Public School Employees' Retirement System (PSERS). Although data from the retirement systems are used in the valuation, members are ultimately placed into the State Fund or the School Fund based on their last employer payroll location code.

Actuarial Certification

Future actuarial results may differ significantly from the current results presented in this report due to such factors as the following: experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the plan's funded status); and changes in benefit provisions or applicable law. Since the potential impact of such factors is outside the scope of a normal annual actuarial valuation, an analysis of the range of results is not presented herein.

This is to certify that the independent consulting actuary is a member of the American Academy of Actuaries and has experience in performing valuations for public retirement systems, that the valuations were prepared in accordance with principles of practice prescribed by the Actuarial Standards Board, and that the actuarial calculations were performed by qualified actuaries in accordance with accepted actuarial procedures, based on the current provisions of the medical plans and on actuarial assumptions that are internally consistent and reasonably based on the actual experience of each plan.

REPORT OF THE ACTUARY ON THE RETIREE MEDICAL VALUATION
PREPARED AS OF JUNE 30, 2021**

EXECUTIVE SUMMARY

OVERVIEW

The State Health Benefit Plan (SHBP) provides post-employment health benefits for State Employees, Public School Teachers, Public School Employees, Retirees and their eligible Dependents, and other entities under The Acts for health insurance.

Affordable Care Act

The impact of the Affordable Care Act (ACA) was addressed in this valuation. Review of the information currently available did not identify any specific provisions of the ACA that are anticipated to significantly impact results other than plan design features and fees currently mandated by the ACA and incorporated in the plan designs, which are included in the current baseline claims costs. Continued monitoring of the ACA's impact on the Plan's liability will be required.

COVID-19

The impact of the COVID-19 pandemic was considered in this valuation; however, no changes were incorporated at this time due to the level of uncertainty regarding the impact on both plan costs and contribution levels going forward. Given the uncertainty regarding COVID-19 (e.g., the impact of routine care being deferred, direct COVID-19 treatment and prevention costs, changes in contribution and budget projections), continued monitoring of the impact on the Plan's liability will be required.

Total Covered Payroll Development

For the June 30, 2021 OPEB valuation, census data was provided by DCH for both active and retired members participating in the SHBP health plans. This data included, among other items, a payroll location code which could be used in conjunction with the pension data provided by ERS, JRS, and LRS for the State Fund and TRS and PSERS for the School Fund, to obtain additional information and to determine eligibilities and participation election patterns.

The payroll location codes and the various pension plan data are used to develop a methodology to determine the Total Covered Payroll. The methodology attempts to estimate Total Covered Payroll for all eligible members, including waivers. Our methodology is as follows:

- Use the Total Covered Payroll for the pension systems as a starting point.
- Exclude compensation for pension plan members who are known to be ineligible for SHBP based on their payroll location codes. These would include, among others, certain Tax Officials, certain University or Charter School employees and certain library employees.

Total Covered Payroll Development

The Total Covered Compensation development for the State Fund is shown below.

State (ERS, JRS, LRS)	6/30/2021
Pension Payroll	
ERS	2,480,421,905.12
JRS	63,421,000.00

School Total Covered Payroll	\$ 10,912,921,884.02

State Employee OPEB Fund

Although the State Employee OPEB Fund intends to begin pre-funding benefits, the current assets have not yet accumulated to the level needed for significant long-term investment. Therefore, the discount rate used to determine the present value of benefits needs to be reflective of the expected investment return on cash and other very short-term investments. For the June 30, 2021 valuation, a discount rate of 7.00% has been used for the State Employee OPEB Fund.

The plan designs offered for the 2022 plan year are as follows:

For Medicare-eligible members

- UnitedHealthcare Medicare Advantage (MAPD) Plan Options (Standard and Premium)
- Anthem Blue Cross and Blue Shield Medicare Advantage (MAPD) Plan Options (Standard and Premium)

Non-MA Plan Options

- Anthem BCBS Gold, Silver, Bronze Health Reimbursement Arrangement (HRA) Plan Options
- Anthem BCBS, Kaiser Permanente (KP) and UnitedHealthcare Health Maintenance Organization (HMO) Plan Options
- UnitedHealthcare High Deductible Health Plan (HDHP)

The valuation indicates that a Pre-Funding Contribution in the amount of \$51,658,031 or 1.93% of total covered payroll, payable for the fiscal year ending June 30, 2024 is needed to actuarially support the benefits of the State Employee OPEB Fund.

If the employer contributions are made at the required levels each year, and the Fund earns 7.00% in investment return each year, then the Fund will be projected to cover the cost of all future benefits. In order to demonstrate discount rate sensitivity, Schedule A shows the results of the valuation using a 6.00% discount rate for illustrative purposes.

Medical and drug benefits of the SHBP offered in 2022 to State Employees are used as a basis for the actuarially calculated contribution rate which is developed using the unit credit actuarial cost method with projected benefits. Although there are State dental and vision plans, they are employee-pay-all and, therefore, not included in the liabilities. As of June 30, 2021, the assets in trust solely to provide benefits to retirees and their beneficiaries is \$1,938,442,606. Gains and losses are reflected in the unfunded accrued liability that is assumed amortized by regular annual contributions as a level percentage of payroll within a 30-year period, on the assumption that payroll will increase by 3.00% annually. The assumptions are recommended by the actuary and are in the aggregate, reasonably related to the experience under the Fund and to reasonable expectations of anticipated experience under the Fund.

School Personnel OPEB Fund

Although the School Employee OPEB Fund intends to begin pre-funding benefits, the current assets have not yet accumulated to the level needed for significant long-term investment. Therefore, the discount rate used to determine the present value of benefits needs to be reflective of the expected investment return on cash and other very short-term investments. For the June 30, 2021 valuation, a discount rate of 4.50% has been used for the School Personnel OPEB Fund.

The plan designs offered for the 2022 plan year are as follows:

For Medicare-eligible members

- UnitedHealthcare Medicare Advantage (MAPD) Plan Options (Standard and Premium)
- Anthem Blue Cross and Blue Shield Medicare Advantage (MAPD) Plan Options (Standard and Premium)

Non-MA Plan Options

- Anthem Gold, Silver, Bronze Health Reimbursement Arrangement (HRA) Plan Options
- Anthem, Kaiser Permanente (KP) and UnitedHealthcare Health Maintenance Organization (HMO) Plan Options
- UnitedHealthcare High Deductible Health Plan (HDHP)

The valuation indicates that a Pre-Funding Contribution in the amount of \$628,435,390 payable for the fiscal year ending June 30, 2024 is required to actuarially support the benefits of the School Personnel OPEB Fund.

If the employer contributions are not increased to the required levels, the Fund will not be projected to cover the cost of all future benefits. If the employer contributions are increased to the required levels, and the Fund earns 4.50% in investment return each year, then the Fund will be projected to cover the cost of all future benefits. If the assets are invested in such a way as to expect a rate of return higher than 4.50%, then the discount rate used in valuing liabilities could be increased. Schedule A shows the results of the valuation using a 6.00% discount rate for illustrative purposes.

Medical and drug benefits of the SHBP offered in 2022 to teachers and non-certificated public school employees are used as a basis for the actuarially calculated contribution rate which is developed using the unit credit actuarial cost method with projected benefits. As of June 30, 2021, the assets in trust solely to provide benefits to retirees and their beneficiaries is \$709,043,075. Gains and losses are reflected in the unfunded accrued liability that is assumed amortized by regular annual contributions as a level percentage of payroll within a 30-year period, on the assumption that payroll will increase by 3.00% annually. The assumptions are recommended by the actuary and are in the aggregate, reasonably related to the experience under the Fund and to reasonable expectations of anticipated experience under the Fund.

Normal	1.86%	2.64%
Accrued Liability	0.07%	1.10%
Total	<u>1.93%</u>	<u>3.74%</u>

*In addition, in 2021 data was collected for 11,434 State active employees who have waived health coverage under SHBP. It is assumed 20% of these members will elect SHBP coverage before retirement and be eligible for an OPEB benefit.

The following table summarizes the Unfunded Actuarial Accrued Liability and the Pre-Funding Contribution for the State Employee OPEB Fund for June 30, 2021 and June 30, 2020:

Valuation Date	June 30, 2021	June 30, 2020
State Employee OPEB Fund

2. The valuation indicates that contributions of \$51,658,031 are sufficient to support current benefits of the State Employee OPEB Fund. Comments on the valuation results as of June 30, 2021 are given in Section IV and further discussion of the contribution levels is set out in Sections V and VI. Schedule A shows the results of the valuation using a 6.00% discount rate for illustrative purposes.
3. Schedule C of this report outlines the full set of actuarial assumptions and methods employed in the current valuation. Approximately 6.00% of State Employee OPEB Fund members who are included in the State Employee OPEB Fund Total OPEB Liability participate in the Georgia Teachers Retirement System. Assumptions for these members can be found in the School Employee OPEB Fund section of this report.
4. Schedule D of this report outlines the summary of plan provisions as interpreted for valuation purposes.

5. The following table details the change in the Unfunded Accrued Liability (UAL). All dollar amounts are expressed in millions.

* The discount rate was increased from 4.50% to 7.00%.

** Other category includes changes due to such sources as retirements, terminations, deaths, etc., differing from the assumed rates, new entrants entering the plan with a partial year of service credit at the valuation date, and actual cash flow and investment timing different from assumed.

SECTION II - MEMBERSHIP DATA

1. Data regarding the membership of the plans for use as a basis of the valuation were furnished by the Department of Community Health. Census from the Employees' Retirement System, the Judicial Retirement System, and the Legislative Retirement System was used to obtain additional information as appropriate. The following table shows the number of retirees, spouses of retirees and active employees currently participating in the SHBP health plans on the basis of which the valuation was prepared.

State Employee OPEB Fund	Total
Number of Retirees	38,144
Number of Spouses of Retirees	12,350
Number of Actives	46,384

The valuation was based upon data furnished by the State pension retirement systems and the Georgia Department of Community Health staff, concerning active, inactive, and retired members along with pertinent claims data and financial information. This information was reviewed for completeness and internal consistency but was not audited. The valuation results depend on the integrity of the data. If any of the information is inaccurate or incomplete our results may be different, and our calculations may need to be revised. In the June 30, 2021 valuation, 519 active members out of over 46,000 total active members were missing information regarding entry age, so entry age was assumed to be equal to current age for valuation purposes. 3 active members were missing information regarding gender, so gender was assumed to be female.

2. Detailed membership summaries are shown in the following tables:

SECTION III - ASSETS

Schedule B shows information regarding assets for valuation purposes. As of June 30, 2021, assets held in trust solely to provide benefits to retirees and their beneficiaries in accordance with the terms of the Fund equal \$1,938,442,606.

For the June 30, 2021 valuation, a discount rate of 7.00% has been used for the State Employee OPEB Fund. The long-term rate of return is used to project Health Care Fund solvency for both the actuarial valuation and for GASB purposes.

SECTION IV - COMMENTS ON VALUATION

1. Schedule A of this report outlines the results of the actuarial valuation. The valuation was prepared in accordance with the actuarial assumptions and the actuarial cost method, which are described in Schedule C, and the summary of plan provisions, which are described in Schedule D.
2. The valuation shows that the State Employee OPEB Fund has an actuarial accrued liability of \$906,432,672 for benefits expected to be paid on account of the present active membership, based on service to the valuation date.
3. The State Employee OPEB Fund's liability on account of benefits payable to retirees and covered spouses amounts to \$1,066,772,550.
4. The total State Employee OPEB Fund actuarial accrued liability amounts to \$1,973,205,222.
5. Against these liabilities, the Fund has present assets for valuation purposes in the amount of \$1,938,442,606. Therefore, the total unfunded actuarial accrued liability for the State Employee OPEB Fund is \$34,762,616.
6. The normal contribution is equal to the actuarial present value of benefits accruing during the current year. The normal contribution for the State Employee OPEB Fund is determined to be \$49,750,139.

SECTION V - CONTRIBUTIONS PAYABLE UNDER THE PLAN

**PRE-FUNDING EMPLOYER CONTRIBUTION
For Fiscal Year Ending June 30, 2024**

Pre-Funding Contribution	
State Employee OPEB Fund	
Normal	\$ 49,750,139
Accrued Liability	1,907,892
Total	<u>\$ 51,658,031</u>

1. The valuation indicates that the normal contribution for the State Employee OPEB Fund is determined to be \$49,750,139.
2. The unfunded actuarial accrued liability amounts to \$34,762,616 and is for employees, retirees and covered spouses that will receive benefits paid from the State Employee OPEB Fund.
3. An accrued liability contribution for the State Employee OPEB Fund of \$1,907,892 is sufficient to amortize the unfunded actuarial accrued liability over a 30-year period, based on the assumption that the contribution will increase by 3.00% annually.
4. The total Pre-Funding Contribution for the State Employee OPEB Fund is, therefore, \$51,658,031.

SECTION VI - COMMENTS ON LEVEL OF FUNDING

1. The monthly contribution for retirees to opt into the medical plan is based on plan election, Medicare eligibility and election, and dependent coverage election. Claims, premiums, and associated costs paid by the employer, on behalf of the retiree, as well as contributions placed in trust will be considered as contributions towards the pre-funding contribution. All employer contributions shown in this report are net of retiree monthly contributions, which are shown in Schedule D as Retiree Premiums.
2. The valuation indicates that a decrease in the recommended employer contribution for the State Employee OPEB Fund from last year's recommended amount of \$105,487,828 to the current valuation amount of \$51,658,031 would be needed to fund the State Employee OPEB Fund.
3. This contribution of \$51,658,031 is required to meet the cost of benefits currently accruing and provide for the amortization of the unfunded actuarial accrued liability over a period of 30 years.
4. The decrease in the recommended contribution is primarily due to the change in discount rate and investment earnings higher than anticipated. The decrease was slightly offset due to health costs higher than anticipated and demographic experience.

SECTION VII - ACCOUNTING INFORMATION

The information required under the Governmental Accounting Standards Board (GASB) Statements No. 74 and 75 will be issued in separate reports. The following information is provided for informational purposes only.

1. Schedule of Funding Progress and Schedule of Employer Contributions

A data audit was performed, and data collection procedures and assumptions were changed beginning with the 6/30/2012 valuation. Assumptions were changed beginning with the 6/30/2015 valuation to reflect the retirement systems' experience studies. In 2017, the methodology used to split members between State and School was changed and the participation and tobacco use assumptions were changed. In 2021, the discount rate was increased from 4.50% to 7.00%.

SCHEDULE B

PLAN ASSETS

GASB defines plan assets as resources, usually in the form of stocks, bonds, and other classes of investments, that have been segregated and restricted in a trust, or equivalent arrangement, in which (a) employer contributions to the plan are irrevocable, (b) assets are dedicated to providing benefits to retirees and their beneficiaries, and (c) assets are legally protected from creditors of the employers or plan administrator, for the payment of benefits in accordance with the terms of the plan. Assets in the trust may be used to pay health benefits to current retirees and their beneficiaries.

As of June 30, 2021, assets held in trust solely to provide benefits to retirees and their beneficiaries in accordance with the terms of the State Employee OPEB Fund equal \$1,938,442,606.

For the June 30, 2021 valuation, a discount rate of 7.00% has been used for the State Employee OPEB Fund.

SCHEDULE C

OUTLINE OF ACTUARIAL ASSUMPTIONS AND METHODS

VALUATION DATE: June 30, 2021

DISCOUNT RATE: 7.00% per annum, compounded annually

ANNUAL EXPECTED MEDICAL/RX CLAIMS (AGE ADJUSTED TO AGE 65):

PRE-MEDICARE

Following is a chart detailing expected claims for pre-65 retirees blended based on assumed plan elections and normalized to age 65.

Pre-Medicare*	\$ 16,198

*Retirees selecting one of the HRA plans will also receive annual credits to use for eligible medical expenses. For 2022, the credits are \$400 for the Gold Plan, \$200 for the Silver Plan and \$100 for the Bronze plan. For members participating in the Anthem or UnitedHealthcare plans, wellness credits up to \$480 are available to those completing certain wellness requirements. It is assumed that 50% of eligible plan participants receive the additional wellness credits.

MEDICARE ELIGIBLE

Effective January 1, 2010, the Medicare Advantage Plans are mandatory for Medicare-eligible retirees to receive the State subsidy.

The Medicare Advantage Plan monthly retiree premiums for members with Medicare Parts A and B as of January 1, 2022 are as follows:

Medicare Advantage Plan	Retiree Premium
UHC Standard MA	\$ 0.00
UHC Premium MA	\$ 148.22
Anthem Standard MA	\$ 146.15
Anthem Premium MA	\$ 298.68

Following is a chart detailing expected claims costs for Medicare Advantage Plan retirees blended based on assumed plan elections and normalized to age 65. It is assumed that 94% of retirees will choose UHC plans and 6% of retirees will choose Anthem plans. It is further assumed that 31% choose a Premium plan and 69% choose a Standard plan.

2022 premium rates, trended to the valuation date, were used to develop the expected claims costs for Medicare Advantage Plan retirees.

Medicare Advantage*	\$ 713

*Claims costs for current retirees with no Medicare Part A coverage were assumed to be 373% of the claims shown above.

HEALTH CARE COST TREND RATES: Following is a chart detailing trend assumptions:

Year	Pre-65 Retiree Claims Trend	Post-65 Retiree Claims Trend
2021	6.50%	5.00%
2022	6.25	4.75
2023	6.00	4.50

2027	5.00	4.50
2028	4.75	4.50
2029 and Beyond	4.50	4.50

AGE RELATED MORBIDITY: Per capita costs are adjusted to reflect expected cost changes related to age. The increase to the net incurred claims was assumed to be:

Participant Age	Annual Increase
Under 30	0.00%
30 – 34	1.00
35 – 39	1.50
40 – 44	2.00
45 – 49	2.60

55 – 59	3.60
60 – 64	4.20
65 – 69	3.00
70 – 74	2.50
75 – 79	2.00
80 – 84	1.00
85 – 89	0.50
90 and Over	0.00

ANTICIPATED PARTICIPATION: Representative values of the assumed annual rates of member participation and spouse coverage by future retirees are as follows:

	State
Member Participation*:	
If 5 years of service on 1/1/2012	95%
If less than 5 years of service on 1/1/2012:	
Years of Service at Retirement:	
30+	95%
25-29	90%
20-24	80%
15-19	65%
10-14	50%
Under 10	20%
Spouse Coverage**:	
If retiree had 5 years of service on 1/1/2012	40%
If retiree had less than 5 years of service on 1/1/2012:	
Years of Retiree Service at Retirement:	
30+	32%
25-29	30%
20-24	26%
15-19	20%
10-14	18%
Under 10	8%

* Sufficient experience for developing plan specific participation rates for members with less than 5 years of service on 1/1/2012 has not yet developed, so standard actuarial assumptions for participation based on level of subsidization are used. Active employees currently waiving health coverage are assumed to join the plan at a later date at the rate of 20% and then participate in the same pattern as current participating members. The 20% assumption is based on actual experience using past 4 years of waiver data.

** Wives are assumed to be three years younger than husbands.

ACTUARIAL METHOD: Costs were determined using the Projected Unit Credit Actuarial Cost Method. The annual service cost is the present value of the portion of the projected benefit attributable to participation service during the upcoming year, and the actuarial accrued liability (AAL) is equal to the present value of the portion of the projected benefit attributable to service before the valuation date. Service from hire date through the date of full retirement eligibility was used in allocating costs.

ACTUARIAL VALUE OF ASSETS: Market Value

SCHEDULE D

SUMMARY OF MAIN PLAN PROVISIONS AS INTERPRETED FOR VALUATION PURPOSES

State Employee OPEB Fund Eligibility

Retiree medical eligibility is attained when an employee retires and is immediately eligible to draw a retirement annuity from any of the retirement systems listed below. "Old Plan" means the plan applicable to members beginning employment prior to July 1, 1982. "New Plan" means the plan applicable to members employed on or after July 1, 1982 and before January 1, 2009. "GSEPS" means the plan applicable to members employed on or after January 1, 2009.

- Employees' Retirement System (GSEP Non-Police)
 - Service Retirement: 25 years of service or age 60 with 10 years of service
 - Disability Retirement: 15 years of service
 - Active Death Surviving Spouse: 15 years of service
- Employees' Retirement System (GSEP Police)
 - Service Retirement: 30 years of service or age 55 with 10 years of service
 - Disability Retirement: 15 years of service
 - Active Death Surviving Spouse: 13 years and 4 months of service
- Employees' Retirement System (Police)
 - Service Retirement: 30 years of service or age 55 with 10 years of service
 - Disability Retirement: 13 years and 4 months of service
 - Active Death Surviving Spouse: 13 years and 4 months of service
- Employees' Retirement System (Old & New Plan Non-Police)
 - Service Retirement: 25 years of service or age 60 with 10 years of service
 - Disability Retirement: 13 years and 4 months of service
 - Active Death Surviving Spouse: 13 years and 4 months of service or age 60 with 10 years of service
- Judicial Retirement System
 - Service Retirement: age 60 with 10 years of service
 - Disability Retirement: 4 years of service
 - Active Death Surviving Spouse: 10 years of service
- Legislative Retirement System
 - Service Retirement: age 60 with 8 years of service
 - Disability Retirement: age 60 with 8 years of service
 - Active Death Surviving Spouse: 15 years of service or age 60 with 8 years of service

Retirees from other systems who may be eligible for post-employment benefits other than pensions were included in the valuation if they were included in the DCH census data. Employees with payroll location codes less than 60000 were included in the State Employee OPEB Fund. Approximately 6.00% of these employees are members of the Teachers Retirement System. Information about this System can be found in the report for the School Employee OPEB Fund.

Coverage starts immediately at retirement, provided the retiree makes proper premium payments or has the premiums deducted from the annuity check. If elected, dependent coverage starts on the same day as retiree coverage. A change from single to family coverage as a retiree is allowed only with a qualified change in status.

A tobacco surcharge of \$80 per month is charged to those tobacco users not participating in the Medicare Advantage plans. Of the retirees not participating in the Medicare Advantage plans, it is assumed that 2.5% pay the tobacco surcharge.

2022 Plan Options

The plan designs offered for the 2022 plan year are as follows:

For Medicare-eligible members

- UnitedHealthcare Medicare Advantage (MAPD) Plan Options (Standard and Premium)
- Anthem Blue Cross and Blue Shield Medicare Advantage (MAPD) Plan Options (Standard and Premium)

Non-MA Plan Options

- Anthem Gold, Silver, Bronze Health Reimbursement Arrangement (HRA) Plan Options
- Anthem, Kaiser Permanente (KP) and UnitedHealthcare Health Maintenance Organization (HMO) Plan Options
- UnitedHealthcare High Deductible Health Plan (HDHP)

Premiums

Retiree premiums vary based on plan election, dependent coverage, Medicare eligibility and election. Premiums shown are monthly and are effective January 1, 2022.

The Medicare Advantage Plan monthly retiree premiums for members with Medicare Parts A and B as of January 1, 2022 are as follows. The Fund pays the Medicare Part B late enrollment penalty for members who were required to pay the penalty when the Medicare Advantage plans were first implemented. Future retirees are required to enroll in Medicare Part B when first eligible to avoid the penalty, or be responsible for paying the late enrollment penalty if applicable.

Medicare Advantage Plan	Retiree Premium
UHC Standard MA	\$ 0.00
UHC Premium MA	\$ 148.22
Anthem Standard MA	\$ 146.15
Anthem Premium MA	\$ 298.68

For active employees with less than 5 years of service, premiums will be subject to the service based schedule shown on the next page.

CONTRIBUTIONS (Actives with less than five years of service as of January 1, 2012): The Health Benefit Fund will pay a portion of the blended contribution rate for the Bronze Plan or the UHC Premium MA Plan based on the retirees' service at retirement. The retiree or spouse will pay the remainder of the premium for the chosen plan, not less than the premium paid by those with more than five years of service as of January 1, 2012.

*In addition, in 2021 data was collected for 50,229 School active employees who have waived health coverage under SHBP. It is assumed 20% of these members will elect SHBP coverage before retirement and be eligible for an OPEB benefit.

The following table summarizes the Unfunded Actuarial Accrued Liability and the Pre-Funding Contribution for the School Personnel OPEB Fund for June 30, 2021 and June 30, 2020:

Valuation Date	June 30, 2021	June 30, 2020
School Personnel OPEB Fund		
Unfunded Actuarial Accrued Liability	\$ 7,281,133,271	\$ 6,784,956,424
Pre-Funding Contribution (\$)	\$ 628,435,390	\$ 596,463,177
Discount Rate	4.50%	4.50%

2. The valuation indicates that a total contribution of \$628,435,390 is sufficient to support current benefits of the School Personnel OPEB Fund. Comments on the valuation results as of June 30, 2021 are given in Section IV and further discussion of the contribution levels is set out in Sections V and VI. If the contributions are not increased to the required levels, the Fund will not be projected to cover the costs of all future benefits. If contributions are made at the required levels and the assets are invested in such a way as to earn more than 4.50%, then the discount rates for valuing liabilities could be increased. The impact of this change, using a 6.00% discount rate for illustrative purposes, is shown in Schedule A.
3. Schedule C of this report outlines the full set of actuarial assumptions and methods employed in the current valuation.
4. Schedule D of this report outlines the summary of plan provisions as interpreted for valuation purposes.

5. The following table details the change in the Unfunded Accrued Liability (UAL). All dollar amounts are expressed in millions.

7. Actual UAL June 30, 2021 = 1. + 3. + 4. + 5. + 6.	\$ 7,281.1
June 30, 2020 Accrued Liability (AL)	\$ 7,396.0
Other as a % of June 30, 2020 AL	3.57%

* Other category includes changes due to such sources as retirements, terminations, deaths, etc., differing from the assumed rates, new entrants entering the plan with a partial year of service credit at the valuation date, and actual cash flow and investment timing different from assumed. The primary reasons for the loss are new entrants entering the plan with more than one year of service and more retirements than anticipated over the one-year period, with many new retirees having more service than anticipated due to sick leave conversion.

SECTION II - MEMBERSHIP DATA

1. Data regarding the membership of the plans for use as a basis of the valuation were furnished by the Department of Community Health. Census from the Teachers' Retirement System, the Public School Employees' Retirement System, the Atlanta Public Schools and Fulton County Schools was used to obtain additional information as appropriate. The following table shows the number of retirees, spouses of retirees and active employees currently participating the SHBP health plans on the basis of which the valuation was prepared.

School Personnel OPEB Fund	Total
Number of Retirees	89,388
Number of Spouses of Retirees	31,688
Number of Actives	177,415

The valuation was based upon data furnished by the State pension retirement systems and the Georgia Department of Community Health staff, concerning active, inactive, and retired members along with pertinent claims data and financial information. This information was reviewed for completeness and internal consistency but was not audited. The valuation results depend on the integrity of the data. If any of the information is inaccurate or incomplete our results may be different, and our calculations may need to be revised. In the June 30, 2021 valuation, 788 active members out of over 177,000 total active members were missing information regarding entry age, so entry age was assumed to be equal to current age for valuation purposes. 3 active members were missing information regarding gender, so gender was assumed to be female.

2. Detailed membership summaries are shown in the following tables:

Total	89,388	31,688	121,076

SECTION III - ASSETS

Schedule B shows information regarding assets for valuation purposes. As of June 30, 2021, assets held in trust solely to provide benefits to retirees and their beneficiaries in accordance with the terms of the Fund equal \$709,043,075.

Although the School Employee OPEB Fund intends to begin pre-funding benefits, there is no funding policy in place to fund the full actuarially determined contribution every year. Therefore, the discount rate used to determine the present value of benefits needs to be reflective of the blend between the expected investment return on long term investments and on cash and other very short-term investments. For the June 30, 2021 valuation, a discount rate of 4.50% has been used for the School Employee OPEB Fund.

SECTION IV - COMMENTS ON VALUATION

1. Schedule A of this report outlines the results of the actuarial valuation. The valuation was prepared in accordance with the actuarial assumptions and the actuarial cost method, which are described in Schedule C, and the summary of plan provisions, which are described in Schedule D.
2. The valuation shows that the School Personnel OPEB Fund has an actuarial accrued liability of \$5,459,049,784 for benefits expected to be paid on account of the present active membership, based on service to the valuation date.
3. The School Personnel OPEB Fund's liability on account of benefits payable to retirees and covered spouses amounts to \$2,531,126,562.
4. The total School Personnel OPEB Fund actuarial accrued liability amounts to \$7,990,176,346.
5. Against these liabilities, the Fund has present assets for valuation purposes in the amount of \$709,043,075. Therefore, the total unfunded actuarial accrued liability for the School Personnel OPEB Fund is \$7,281,133,271.
6. The normal contribution is equal to the actuarial present value of benefits accruing during the current year. The normal contribution for the School Personnel OPEB Fund is determined to be \$331,454,222.

SECTION V - CONTRIBUTIONS PAYABLE UNDER THE PLAN

PRE-FUNDING EMPLOYER CONTRIBUTION

For Fiscal Year Ending June 30, 2024

Pre-Funding Contribution	
School Personnel OPEB Fund	
Normal	\$ 331,454,222
Accrued Liability	296,981,168
Total	<u>\$ 628,435,390</u>

1. The valuation indicates that the normal contribution for the School Personnel OPEB Fund is determined to be \$331,454,222.
2. The unfunded actuarial accrued liability amounts to \$7,281,133,271 and is for employees, retirees and covered spouses that will receive benefits paid from the School Personnel OPEB Fund.
3. An accrued liability contribution for the School Personnel OPEB Fund of \$296,981,168 is sufficient to amortize the unfunded actuarial accrued liability over a 30-year period, based on the assumption that the contribution will increase by 3.00% annually.
4. The total Pre-Funding Contribution for the School Personnel OPEB Fund is, therefore, \$628,435,390.

SECTION VI - COMMENTS ON LEVEL OF FUNDING

1. The monthly contribution for retirees to opt into the medical plan is based on plan election, Medicare eligibility and election, and dependent coverage election. Claims, premiums, and associated costs paid by the employer, on behalf of the retiree, as well as contributions placed in trust will be considered as contributions towards the pre-funding contribution. All employer contributions shown in this report are net of retiree monthly contributions, which are shown in Schedule D as Retiree Premiums.
2. The valuation indicates that an increase in the recommended employer contribution rate for the School Personnel OPEB Fund from last year's recommended amount of \$596,463,177 to this year's recommended amount of \$628,435,390 is needed to fund the School Personnel OPEB Fund.
3. This contribution of \$628,435,390 is needed to meet the cost of benefits currently accruing and provide for the amortization of the unfunded actuarial accrued liability over a period of 30 years.
4. The increase in the recommended contribution is primarily due to demographic changes and contributions less than anticipated. There was also a small increase due to health costs larger than expected. The increase was slightly offset by investment earnings higher than anticipated.

SECTION VII - ACCOUNTING INFORMATION

The information required under the Governmental Accounting Standards Board (GASB) Statements No. 74 and 75 will be issued in separate reports. The following information is provided for informational purposes only.

1. Schedule of Funding Progress and Schedule of Employer Contributions

6/30/2021	709,043,075	7,990,176,346	7,281,133,271	8.87

A data audit was performed, and data collection procedures and assumptions were changed beginning with the 6/30/2012 valuation. Assumptions were changed beginning with the 6/30/2015 valuation to reflect the retirement systems' experience studies. In 2017, the methodology used to split members between State and School was changed and the participation and tobacco use assumptions were changed.

SCHEDULE B

PLAN ASSETS

GASB defines plan assets as resources, usually in the form of stocks, bonds, and other classes of investments, that have been segregated and restricted in a trust, or equivalent arrangement, in which (a) employer contributions to the plan are irrevocable, (b) assets are dedicated to providing benefits to retirees and their beneficiaries, and (c) assets are legally protected from creditors of the employers or plan administrator, for the payment of benefits in accordance with the terms of the plan. Assets in the trust may be used to pay health benefits to current retirees and their beneficiaries.

As of June 30, 2021, assets held in trust solely to provide benefits to retirees and their beneficiaries in accordance with the terms of the State Personnel OPEB Fund equal \$709,043,075.

Although the School Employee OPEB Fund intends to begin pre-funding benefits, there is no funding policy in place to fund the full actuarially determined contribution every year. Therefore, the discount rate used to determine the present value of benefits needs to be reflective of the blend between the expected investment return on long term investments and on cash and other very short-term investments. For the June 30, 2021 valuation, a discount rate of 4.50% has been used for the School Employee OPEB Fund.

SCHEDULE C

OUTLINE OF ACTUARIAL ASSUMPTIONS AND METHODS

VALUATION DATE: June 30, 2021

DISCOUNT RATE: 4.50% per annum, compounded annually

ANNUAL EXPECTED MEDICAL/RX CLAIMS (AGE ADJUSTED TO AGE 65):

PRE-MEDICARE

Following is a chart detailing expected claims for pre-65 retirees blended based on assumed plan elections and normalized to age 65.

Pre-Medicare*	\$ 16,198

*Retirees selecting one of the HRA plans will also receive annual credits to use for eligible medical expenses. For 2022, the credits are \$400 for the Gold Plan, \$200 for the Silver Plan and \$100 for the Bronze plan. For members participating in the Anthem or UnitedHealthcare plans, wellness credits up to \$480 are available to those completing certain wellness requirements. It is assumed that 50% of eligible plan participants receive the additional wellness credits.

MEDICARE ELIGIBLE

Effective January 1, 2010, the Medicare Advantage Plans are mandatory for Medicare-eligible retirees to receive the State subsidy.

The Medicare Advantage Plan monthly retiree premiums for members with Medicare Parts A and B as of January 1, 2022 are as follows:

Medicare Advantage Plan	Retiree Premium
UHC Standard MA	\$ 0.00
UHC Premium MA	\$ 148.22
Anthem Standard MA	\$ 146.15
Anthem Premium MA	\$ 298.68

Following is a chart detailing expected claims costs for Medicare Advantage Plan retirees blended based on assumed plan elections and normalized to age 65. It is assumed that 94% of retirees will choose UHC plans and 6% of retirees will choose Anthem plans. It is further assumed that 31% choose a Premium plan and 69% choose a Standard plan.

2022 premium rates, trended to the valuation date, were used to develop the expected claims costs for Medicare Advantage Plan retirees.

Medicare Advantage*	\$ 713

*Claims costs for current retirees with no Medicare Part A coverage were assumed to be 373% of the claims shown above.

HEALTH CARE COST TREND RATES: Following is a chart detailing trend assumptions:

Year	Pre-65 Retiree Claims Trend	Post-65 Retiree Claims Trend
2021	6.50%	5.00%
2022	6.25	4.75
2023	6.00	4.50
2024	5.75	4.50

2027	5.00	4.50
2028	4.75	4.50
2029 and Beyond	4.50	4.50

AGE RELATED MORBIDITY: Per capita costs are adjusted to reflect expected cost changes related to age. The increase to the net incurred claims was assumed to be:

Participant Age	Annual Increase
Under 30	0.00%
30 – 34	1.00
35 – 39	1.50
40 – 44	2.00
45 – 49	2.60

55 – 59	3.60
60 – 64	4.20
65 – 69	3.00
70 – 74	2.50
75 – 79	2.00
80 – 84	1.00
85 – 89	0.50

ANTICIPATED PARTICIPATION: Representative values of the assumed annual rates of member participation and spouse coverage by future retirees are as follows:

	State
Member Participation*:	
If 5 years of service on 1/1/2012	95%
If less than 5 years of service on 1/1/2012:

25-29	30%
20-24	26%
15-19	20%
10-14	18%
Under 10	8%

* Sufficient experience for developing plan specific participation rates for members with less than 5 years of service on 1/1/2012 has not yet developed, so standard actuarial assumptions for participation based on level of subsidization are used. Active employees currently waiving health coverage are assumed to join the plan at a later date at the rate of 20% and then participate in the same pattern as current participating members. The 20% assumption is based on actual experience using past 4 years of waiver data.

** Wives are assumed to be three years younger than husbands for PSERS participants and four years younger than husbands for TRS participants.

ACTUARIAL METHOD: Costs were determined using the Projected Unit Credit Actuarial Cost Method. The annual service cost is the present value of the portion of the projected benefit attributable to participation service during the upcoming year, and the actuarial accrued liability (AAL) is equal to the present value of the portion of the projected benefit attributable to service before the valuation date. Service from hire date through the date of full retirement eligibility was used in allocating costs.

* The Pub-2010 Teachers Headcount Weighted Below Median Employee mortality table with ages set forward one year and adjusted 106% is used for death prior to retirement. Future improvement in mortality rates is assumed using the MP-2019 projection scale generationally. These rates of improvement have been reduced by 20% for all years prior to the ultimate rate. The proposed rates shown above are based on a projection to 2015. Actual mortality rates would be projected generationally.

SCHEDULE D

SUMMARY OF MAIN PLAN PROVISIONS AS INTERPRETED FOR VALUATION PURPOSES

School Personnel OPEB Fund Eligibility

Retiree medical eligibility is attained when an employee retires, and is immediately eligible to draw a retirement annuity from any of these systems:

- Teachers Retirement System
 - Service Retirement: 25 years of service or age 60 with 10 years of service
 - Disability Retirement: 10 years of service
 - Active Death Surviving Spouse: 10 years of service
- Public School Employees Retirement System
 - Service Retirement: age 60 with 10 years of service
 - Disability Retirement: 15 years of service
 - Active Death Surviving Spouse: age 60 with 10 years of service

TRS eligibility requirements were assumed for members in the Other category of the School Fund.

Coverage starts immediately at retirement, provided the retiree makes proper premium payments or has the premiums deducted from the annuity check. If elected, dependent coverage starts on the same day as retiree coverage. A change from single to family coverage as a retiree is allowed only with a qualified change in status.

A tobacco surcharge of \$80 per month is charged to those tobacco users not participating in the Medicare Advantage plans. Of the retirees not participating in the Medicare Advantage plans, it is assumed that 2.5% pay the tobacco surcharge.

2022 Plan Options

The plan designs offered for the 2022 plan year are as follows:

For Medicare-eligible members

- UnitedHealthcare Medicare Advantage (MAPD) Plan Options (Standard and Premium)
- Anthem Blue Cross and Blue Shield Medicare Advantage (MAPD) Plan Options (Standard and Premium)

Non-MA Plan Options

- Anthem Gold, Silver, Bronze Health Reimbursement Arrangement (HRA) Plan Options
- Anthem, Kaiser Permanente (KP) and UnitedHealthcare Health Maintenance Organization (HMO) Plan Options
- UnitedHealthcare High Deductible Health Plan (HDHP)

Premiums

Retiree premiums vary based on plan election, dependent coverage, Medicare eligibility and election. Premiums shown are monthly and are effective January 1, 2022.

STATE HEALTH BENEFIT PLAN ANNUITANT UNDER 65 RATES JANUARY 1 - DECEMBER 31, 2022

	You	You + Child(ren)	You + Spouse	You + Family

The Medicare Advantage Plan monthly retiree premiums for members with Medicare Parts A and B as of January 1, 2022 are as follows. The Fund pays the Medicare Part B late enrollment penalty for members who were required to pay the penalty when the Medicare Advantage plans were first implemented. Future retirees are required to enroll in Medicare Part B when first eligible to avoid the penalty or be responsible for paying the late enrollment penalty if applicable.

Medicare Advantage Plan	Retiree Premium
UHC Standard MA	\$ 0.00
UHC Premium MA	\$ 148.22
Anthem Standard MA	\$ 146.15
Anthem Premium MA	\$ 298.68

For active employees with less than 5 years of service, premiums will be subject to the service-based schedule shown on the next page.

CONTRIBUTIONS (Actives with less than five years of service as of January 1, 2012): The Health Benefit Fund will pay a portion of the blended contribution rate for the Bronze Plan or the UHC Premium MA Plan based on the retirees' service at retirement. The retiree or spouse will pay the remainder of the premium for the chosen plan, not less than the premium paid by those with more than five years of service as of January 1, 2012.
