Project Management Organizational Chart

Ensuring State Agencies and Tax Payers of Georgia receive the Greatest Value for their Investment

Construction Services – Who we are

Design Review Group

- Comprehensive Constructability Reviews
- Code and Life Safety Reviews
- Assuring Contract Documents are **Complete**

Reviews are conducted by a staff of Architects and Engineers

Quality Assurance Group

Monitors the daily progress of the project

- Quality Inspections of Job Site Conditions
- Work Force Compliance
- Warranty Management

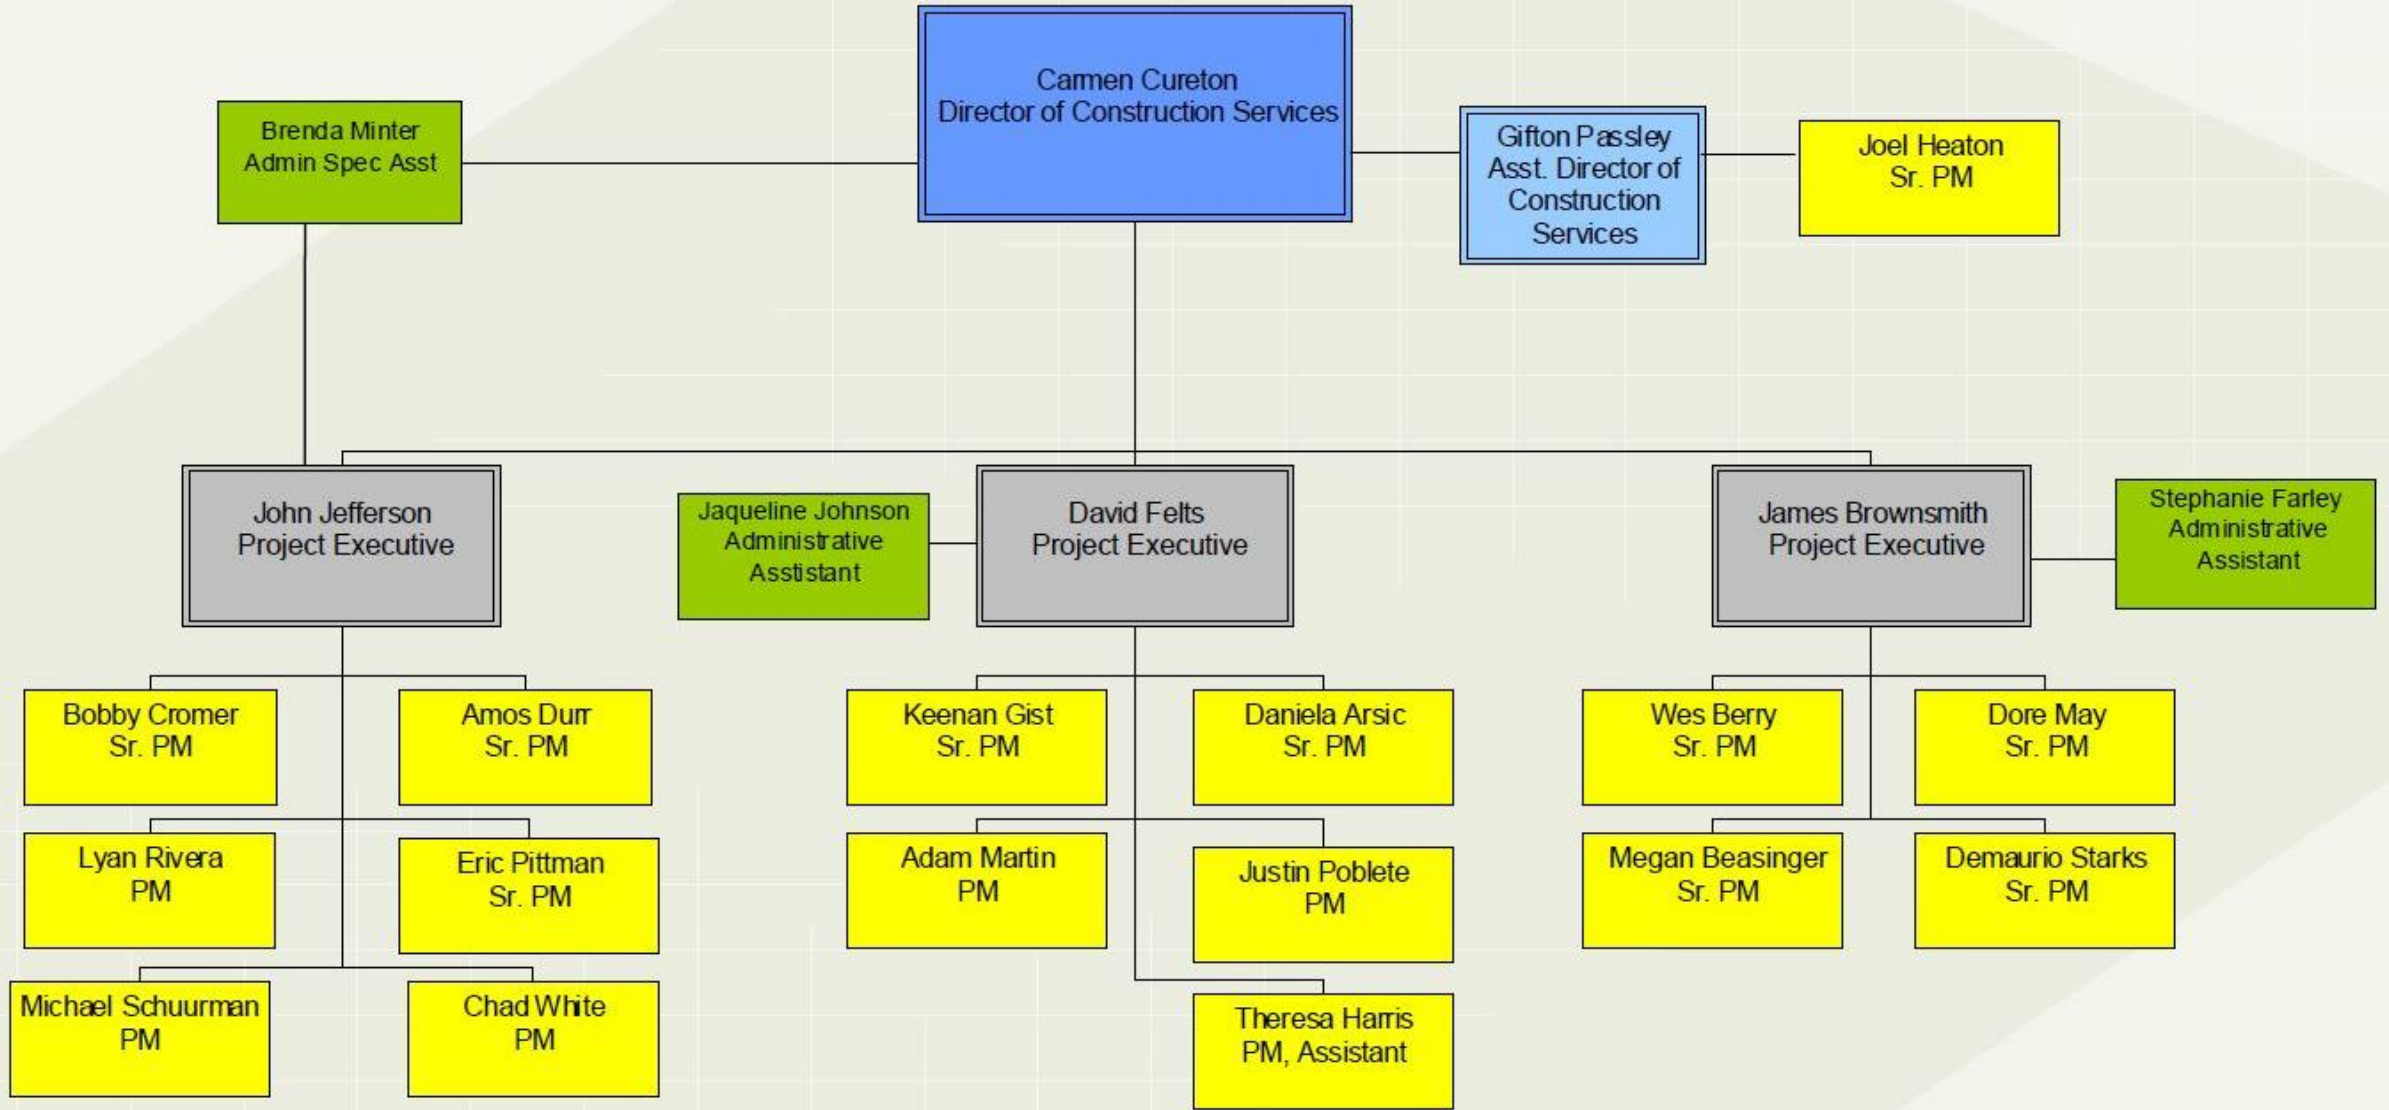

Construction Services – Who we are

Project Managers Leaders of our GSFIC Construction Team

From Programming Thru Final Completion

Top Three Responsibilities

Team Approach

It takes a Team Effort to meet Design & Construction Challenges

- Using Agencies
- Program Managers
- Design Professionals
- Construction Professionals
- Commissioning Agents
- Materials Testing and Special Inspections Firms
- Design Review Group
- Quality Assurance
- Project Management

We also must rely on our Business Partners like all of you around the room. We appreciate your attendance today.

Team Approach?

Expectations and Best Practices

- GSFIC Project Managers
- Design Professionals
- Construction Professionals
- Special Inspections
- Commissioning Agents
- Program Managers

Design Phase

- Assist the Using Agency/Program Manager in developing the project's program
- Keep all stakeholders focused on the Stated Cost Limitation and Schedule
- Assure each phase of design work (SD, DD, CCO, CD) meets the minimum requirements for GSFIC's Design Review Group
- Assist in reconciliation of budget estimates
- Approve payment invoices

GSFIC Project Manager Role – Pre-Construction

- Engage with DP, Using and Tenant agencies
- Procure and coordinate consultants
- Budget, schedule, issues
- Pre-Bid Conference (DBB)
- Pre-Interview Site Visit (CM/GC and DB)
- Thorough review of milestone pricing and GMP documents (CM/GC)
- Assist with obtaining all required permits

GSFIC Project Manager Role – Construction Phase

- Issue Proceed Order and organizes project kickoff meeting
- Attends OAC, Commissioning and pre-installation meetings
- Change orders, Notices of Non-Compliance, RFIs, schedule, budget, contingency, submittals, meeting minutes, field reports, quality issues, pay applications, invoices, amendments , e-Builder
- Communicate, communicate, communicate
- Closeout process

e-Builder - Enterprise Project Management System

e-Builder

[See More Items Pending Approval](#)

Quick Start

- Amendment Approval (AMND)
- Budget Change Approval (BDGC)
- Incumbrance Record/Change Order (IR/CO)
- Commitment Modification (CMD)
- Procurement Request (PR)
- Pass-through Approval (PASST)
- Allotment Approval (ALOT)
- Allotment Change (ALOTC)
- GMP Change Order (GMP)
- Funded Budget Approval (FBUDA)

[More](#)

e-Builder Community | [About](#) | [Help](#)

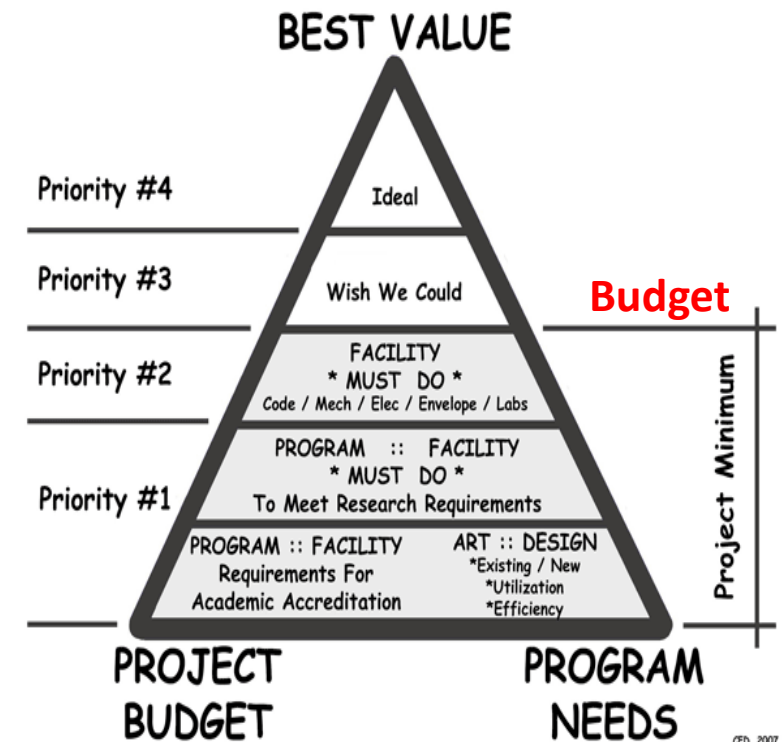

- Procurement and contracts
- Design Review
- Proceed orders
- Incumbrance Records (change orders)
- Requests for information (RFI's)
- Submittals
- Notices of Non-Compliance
- Filing of Project Documentation
- Contract amendments for consultants
- GMP and CCO approvals
- Project Schedules
- Budget management
- Meeting minutes and Field reports
- Pay Applications and Invoices
- Project closeout and warranty

GSFIC Expectations of Design Professionals

Programming Phase

- Lead the way
- Listen to the End Users and Agency
- Speak up if you believe the project is going over budget
- Communicate with the GSFIC Project Manager

Decision Pyramid for Facilities Projects

GSFIC Expectations of Design Professionals

Design Phase (SD/DD/CD):

- Set a realistic design schedule
- Follow the Process Guide
- Resolve code questions
- Respond to Design Review Group comments
- Provide solutions and alternatives
- Communicate with the GSFIC Project Manager
- Speak up if you believe the project is going over budget

GSFIC Expectations of Design Professionals

Construction Phase:

- The Design Professional is the “Building Official”
- Work with the GC/CM/DB to prioritize and **respond timely**
 - Submittals
 - RFIs
 - Pay Applications
 - Incumbrance Records (change orders)
- Plan ahead for OAC meetings, cover-up inspections, pre-installation conferences, coordination with the CxA

GSFIC Expectations of Construction Professionals

Who is the Owner?

- Owner (GSFIC) vs. Using Agency vs. Tenant Agency vs. End User
- GSFIC is the contract holder and decision making authority

Communication, Communication, Communication!

- Respect the chain of command
- Notifications
- Keep us in the loop always

Contract

- Read, read, read!
- New CM/GC Contract vs. DBB vs. DB vs. Small Contracts (SCAR)

GSFIC Expectations of Construction Professionals

Proactive

- Pre-Construction expectations
- Subcontractor management
- Closeout management – “Begin with the end in mind”

Actively engaged

- From Pre-Con until Final Completion (not just Material Completion)
- Respectful and professional working relationship throughout

GSFIC Expectations of Construction Professionals

Minimize Disturbance to End User

- Agency should maintain normal operations

Transparency

- No surprises with budget, quality, schedule
- Fairness - help us to be your advocate
- Present clear backup (pay apps, change orders, CCO/GMP bids, CM contingency)

GSFIC Expectations of Independent Consultants

Special Inspections & Construction Materials Testing

- Geotechnical Services
- Schedule of Special Inspection Services
- Send Qualified Technicians & Inspectors
- Timely inspections and communications
- Reporting
 - Report deficiencies immediately
 - Discrepancy Log
 - Final Report of Special Inspections

GSFIC Expectations of Independent Consultants

Commissioning (Cx)

- Owner's Project Requirements (OPR)
- Design and Submittal Reviews
- Basic Cx required on most new construction and renovation projects
- Enhanced Cx optional – often includes building envelope

GSFIC Expectations of Independent Consultants

Commissioning (Cx)

- GSFIC COMMISSIONING GUIDE <http://gsfic.georgia.gov>
- Kickoff / Partnering meeting
- Communicate deficiencies daily
- Deficiency Log
- Oversee tenant agency personnel training

GSFIC Expectations of Independent Consultants

Commissioning (Cx)

- Submit Final Cx Report - Executive summary and all relevant information
- Post-occupancy verification (no later than 10 months after MC)
- Coordinate or witness deferred seasonal test and balance
- Involvement during warranty phase

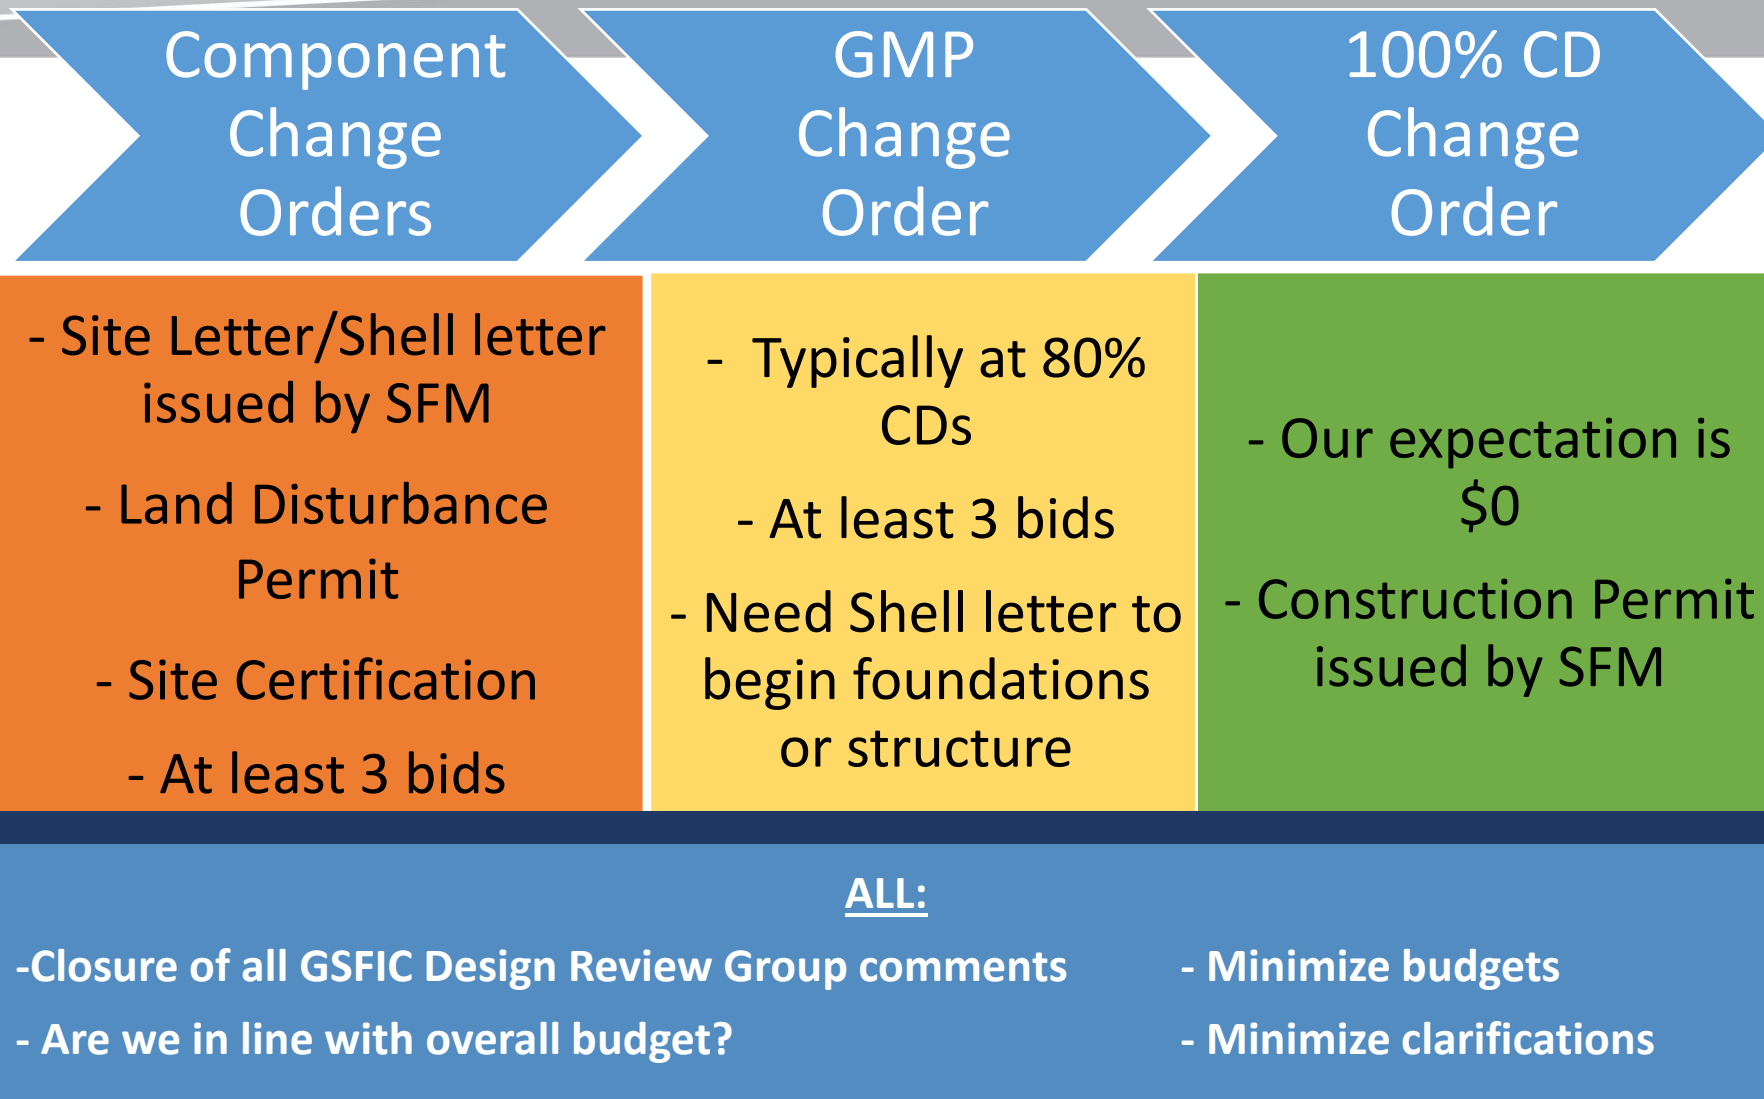

Construction Services – Process and expectations

- Package approvals (CM/GC & DB)
- General Conditions & General Requirements (CM/GC & DB)
- Self-performance (CM/GC & DB)
- Off-site stored materials
- Schedule milestones
- Contingency
- Change orders
- Weather delays
- Notice of non-compliance (NNC)
- Invoicing and pay applications

Construction Services – Package Deliveries

CM/GC and DB
Contracts,
N/A to DBB
Contracts

General Conditions (GCs) and General Requirements (GRs)

- Old contracts
- Contracts Alliance Committee
- New CM/GC re-write issued Q1 2016
- GCs vs. GRs
- Billing backup for GCs & GRs

Construction Services – Protocols

Self-Performance

New CM/GC Contract (rolled out Q1 2016)

- Prior approval required for direct Performance at GMP Change Order
- When Trade Contractors are over budget
- When Trade Contractor defaults

DB Contract (current version, update forthcoming)

- When Trade Contractors are over budget
- When Trade Contractor defaults
- Other compelling circumstances

DBB Contract

- No prior approval required nor is any necessary

Construction Services – Protocols

Off-Site Stored Materials

New CM/GC contract (rolled out Q1 2016)

- Approval required prior to issuance of GMP Change Order
 - Off-Site Stored Materials Agreement
 - Storage location provided to GSFIC and clearly labeled “Property of the Georgia State Financing & Investment Commission”
 - Bill of Sale
 - Insurance and Protection
 - GSFIC may inspect at any time

Current DB and DBB contracts

- Off-site storage not allowable but will mirror new CM/GC contract in near future

Schedule – New Contractual Milestones

1. Design Coordination Meetings
2. Component Construction Documents and Construction Documents receipt and approval
3. Submittal of Component Change Orders and GMP Change Order
4. Construction Start
 - a. Submittal Schedule
 - b. Fire Alarm Shop Drawings
 - c. Fire Protection Shop Drawings
5. NPDES Stabilization
6. Foundations Completion
7. Under-Slab Utilities
8. Slab Completion
9. Structural Top Out
10. Dry-In
11. Metal Stud Wall Completion
12. Rough-In Completion
13. Drywall Completion
14. Equipment Installation
15. Permanent Power
16. Systems Operations
17. Finishes
18. 80% Completion Inspection
19. Commissioning
20. 100% Completion Inspection
21. Equipment Training
22. Material Completion Date
23. Interim Punchlist Completion
24. Final Completion Date

Schedule – Protocols

- Milestones
 - Can not change without Change Order
 - Missing a milestone by more than 7 days requires a Recovery Schedule
- Notice of Non-Compliance for failure to maintain schedule
 - Provide Recovery Schedule within 7 days
- If on schedule, retainage may be frozen at or greater than 50% complete
- GSFIC requires electronic schedule in native format
- Design schedules- Include GSFIC Design Review Group review times

Construction Services – Protocols

CM/Design Contingency

- 8-10% included in SD estimate
- 5% included in DD estimate
- 2-3% CM included at GMP (no design contingency)
- Allowable uses of contingency in contract
- Owner contingency

Change order protocol

- e-Builder Process
- Incumbrance Records (IRs)
- Provide complete cost breakdowns
- Force Accounts
- Markups per the contract
- Timeliness
- Schedule Impact?

Weather delays

- Has it rained greater than ½”?
- Did weather event impact Critical Path activity?
- Contract prescribes anticipated number of weather days per month
- Record impact days
- CCS must concur and sign daily weather log
- Submit Weather Log with Pay Application for DP Approval on a monthly basis
- IR should be generated to extend schedule accordingly

Construction Services – Protocols

Notice of Non-Compliance (NNC)

- DON'T BE AFRAID
- Record of work not in accordance with drawings or specifications
- If work in place isn't correct:
 - Correct
 - Provide Credit

DP and Consultant Invoicing

- Attach Backup
- Enter Invoice Amount in e-Builder
- Special Inspections Invoice GSFIC Directly

Pay Applications

- Schedule of Values (SOV) must be approved
- The values invoiced must be entered into the Excel template
- Provide backup
- Subsequent Pay Applications

Schedule of Values (what should be detailed)

- Design Bid Build Projects
 - SOV should be for the entire project
- CM/GC and DB Projects
 - The initial SOV includes only the pre-construction services
 - Additional SOV items are added as part of the CCO, GMP

Billing for Stored Materials

- Documentation for Stored Materials is attached at the line item where they are billed

Consent of Surety

- New GSFIC Policy in lieu of 2-party check

Retainage

- At Material Completion 100% of the project (including retainage) is due and payable
- The following values are withheld until the work is complete:
 - Punchlist (200%)
 - Permitted Incomplete Work
 - Seasonal Test and Balance (Summer and Winter)

Retainage Release in e-Builder

- Redistribution of Retainage

Payment Affidavit

- Latest contract requirement (combines Statutory and Non-Influence Affidavits)
- Attached to all Applications for Payment that include a release of Retainage

Construction Services – Closeout

Material vs. Substantial Completion

Definition of Material Completion:

- Building is suitable for owner use
- Requires complete operation of all building systems and includes commissioning
- All Work is complete with exception of Minor Items (Punchlist) or Permitted Incomplete Work

Construction Services – Closeout

Pre-Requisites for Material Completion: (e-Builder Closeout Process)

- Notice of Readiness
- Initial Punchlist
- Commissioning
- Fire Alarm Testing (80% and 100%)
- State Fire Marshal issues Certificate of Occupancy
- Operational Permits
- Training
- Operations & Maintenance Manuals
- Initial Test and Balance report
- Perform Final Cleanup

Day of Material Completion

- Who needs to attend?
 - GSFIC Representative(s) to include CCS
 - Design Team including major consultants
 - Using Agency Representative(s)
 - Construction Professional team
 - Major Subcontractors to accompany DP consultants

After Material Completion

- Final Punchlist documented as a Notice of Non-Compliance
- Scheduling Punchlist work
- Contractor has 30 days to complete Punchlist
- Interim inspection once Punchlist items are completed
- Seasonal Test and Balancing of HVAC Systems

Georgia Peach Green Building Rating System

GSFIC administers the Peach Program and chairs the Peach Review Committee.

Serves as a Technical Resource and provide Guidance Documents for Peach submittals.

Prepare Peach Certificates for the Governor and State Property Officer Signatures.

Manage the purchase of Plaque Art Work Design for respective project.

georgiapeach@docs.e-builder.net

Design Impact Checklist Page 7 

The Georgia Peach Green Building Rating System:
Energy Efficiency and Sustainable Construction Standards for State Buildings
In Accordance with the Energy Efficiency and Sustainable Construction Act of 2008
(O.C.G.A. § 50-8-18).

The Act includes a rating system entitled the Georgia Peach Green Building Rating System. Similar to the LEED rating system, the Peach rating encourages additional sustainable strategies for enhanced efficiency and conservation and promotes the use of *Georgia-based products*. The rating system point scale consists of two major components: basic requirements (which are mandatory) and incentives (which are optional). The "Total Point Certification Level" earned will qualify the project for Peach ratings. The Peach ratings are from one Peach (minimum possible points) to four Peaches (maximum possible points). The project and agency will be recognized for energy efficiency and sustainable construction achievements.

Rating System Point Scale

The Energy Efficiency and Sustainable Construction Standards for State Buildings' Georgia Peach Green Building ratings are awarded according to the following scale:

- Category Requirement Incentive
- Commissioning Fundamental Commissioning 10 pts.
- Water Use Reduction 15% 2-20 pts.
- Georgia Based Materials & Products 10% 2-20 pts.
- Energy Modeling & Life Cycle Cost Analysis None 5-50 pts.

Total Point Certification Level

12-30 Points = 
31-50 Points = 
51-70 Points = 
71-100 Points =

Peach Program

The purpose of the Georgia Peach Program is to rate and recognize buildings owned or managed by the state that optimize energy performance, increase the demand for materials and furnishings produced in Georgia, improve the environmental quality in this State, conserve energy, protect the State's natural resources, and reduce the burden on the State's water supply.
